

ZONING BOOK

City of Lowell, Massachusetts

Adopted by the Lowell City Council December 16, 2003.

This document includes all approved amendments through August 2004.

Appendix A

Lowell Zoning Ordinance

CONTENTS*

ARTICLE I. PURPOSE AND AUTHORITY

- 1.1 TITLE
- 1.2 PURPOSES OF CHAPTER
- 1.3 AUTHORITY
- 1.4 APPLICABILITY
- 1.5 INTERPRETATION
- 1.6 EFFECT OF CHAPTER ON COVENANTS AND AGREEMENTS
- 1.7 AMENDMENT OF CHAPTER
- 1.8 SEVERABILITY

ARTICLE II. DEFINITIONS

ARTICLE III. DISTRICTS

- 3.1 ESTABLISHMENT
- 3.2 ZONING MAP
- 3.3 INTERPRETATION OF MAP
 - 3.3.1 General

ARTICLE IV. USE REGULATIONS

- 4.1 GENERAL
- 4.2 TABLE OF USE REGULATIONS
 - 4.2.1 Key
- 4.3 ACCESSORY USES
 - 4.3.1 General
 - 4.3.2 Table of Accessory Uses
 - 4.3.3 Home Occupation – As of Right
 - 4.3.4 Home Occupation – By Special Permit
 - 4.3.5 Special Rules
 - 4.3.6 Temporary Building or Use
 - 4.3.7 Conditions

*** Editor's note** – Printed herein is the zoning ordinance of the city formerly codified as Chapter 31 in the Code of Ordinances. The source of this appendix is the pamphlet compiled by the city entitled "Lowell Zoning Ordinance" certified as a true copy of the Zoning Code of the City of Lowell in effect on December 16, 2003, and supplemented through December 2003. All ordinances amending the zoning code since 1987, have been included in the appropriate sections and are indicated in the history notes immediately following the amended sections. The absence of a history note indicates the section remains unchanged from the pamphlet.

Diagrams have been included in this zoning book for illustrative purposes only and have not been formally adopted as part of the Lowell Zoning Ordinance. The diagrams shall not be construed as altering any regulations expressed herein. Where a conflict exists, the expressed regulations in the Zoning Ordinances shall have precedence over the diagrams. [Ord. 07-13-04]

 - 5.1.6 Yards
 - 5.1.7 Projections
 - 5.1.8 Building Bulk
 - 5.1.9 Reduction of Lot
 - 5.1.10 Lot Width
- 5.2 SPECIAL DIMENSIONAL REGULATIONS
 - 5.2.1 Certain Residential Uses
 - 5.2.2 S1 and S2 Districts
 - 5.2.3 Construction Near Wetlands (See also section 5-120 of the Code of Ordinances)
 - 5.2.4 Corner Lots: Lots with More than One Frontage
 - 5.2.5 Transition Requirements with Residential Districts
 - 5.2.6 Exceptions to Yard Requirements
 - 5.2.7 Exceptions to Height Requirements
 - 5.2.8 Corner Clearance
- 5.3 OPEN SPACE
 - 5.3.1 Landscaped Open Space in Residential Districts
 - 5.3.2 Useable Open Space
 - 5.3.3 Special Permit

ARTICLE VI. GENERAL REGULATIONS

- 6.1 OFF-STREET PARKING
 - 6.1.1 Intent of Parking Requirements
 - 6.1.2 Applicability
 - 6.1.3 Special Regulations
 - 6.1.4 Table of Parking Regulations
 - 6.1.5 Notes to Parking Table
 - 6.1.6 Location and Layout of Parking Facilities
 - 6.1.7 Standards
 - 6.1.8 Screening
 - 6.1.9 Landscaped Open Space in Parking Lots
 - 6.1.10 Table of Dimensional Requirements for Off-Street Parking
 - 6.1.11 Notes to Table of Dimensional Requirements for Off-Street Parking
 - 6.1.12 Prohibition

- 6.2 LOADING REQUIREMENTS
 - 6.2.1 Intent of Loading Requirements
 - 6.2.2 Applicability
 - 6.2.3 Special Regulations
 - 6.2.4 Table of Loading Requirements
 - 6.2.5 Special Requirements
 - 6.2.6 Location and Layout of Loading Facilities
- 6.3 SIGNS
 - 6.3.1 Applicability
 - 6.3.2 Permitted Sign Types
 - 6.3.3 Special Requirements
 - 6.3.4 Table of Sign Regulations
 - 6.3.5 Prohibited Signs
 - 6.3.6 Variance
 - 6.3.7 Special Permit
 - 6.3.8 Maintenance
 - 6.3.9 Energy Shortage
 - 6.3.10 Nonconforming Signs
- 6.4 ILLUMINATION
- 6.5 LANDSCAPING
- 6.6 REFUSE CONTAINERS
- 6.7 DRIVEWAY REGULATIONS
 - 6.7.1 General
 - 6.7.2 Maximum Distance
 - 6.7.3 Grade
 - 6.7.4 Access

ARTICLE VII. SPECIAL REGULATIONS

- 7.1 STATEMENT OF PURPOSE
- 7.2 ADULT ENTERTAINMENT ESTABLISHMENTS
 - 7.2.1 Conditions
- 7.3 BODY ART ESTABLISHMENTS
 - 7.3.1 Conditions
- 7.4 MASSAGE THERAPY ESTABLISHMENTS
 - 7.4.1 Required Affiliation

- 12.2. Conversion of Dwelling Structure
- 12.3. Institutional, Recreational and Educational Uses
- 12.4. Retail, Restaurant, and Consumer Service Uses
- 12.5. Open air or Drive-in Retail and Service
- 12.6. Automotive and Related Uses
- 12.7. Utilities, Telecommunications, and Public Service Uses
- 12.8. Office and Laboratory Uses
- 12.9. Industrial Uses
- 12.10. Special Uses
- 12.11. Uses Prohibited or Not Covered by Table
- 12.12. Scientific Accessory Uses
- 12.13. Artist Uses

ARTICLE XIII: TABLE OF ACCESSORY USES

ARTICLE I. PURPOSE AND AUTHORITY

SECTION 1.1 TITLE

This ordinance, ordained in accordance with the provisions of Chapter 40A of Massachusetts General Laws shall be known as the “Lowell Zoning Ordinance.”

SECTION 1.2 PURPOSES OF CHAPTER

The purposes of this chapter are to promote the health, safety, convenience, morals, and general welfare of the city; to encourage the most appropriate use of land throughout the city; to prevent overcrowding of the land; to conserve the value of the land and buildings; to lessen congestion in the streets; to avoid undue concentration of population; to provide adequate light and air; to facilitate adequate provisions for transportation, water, sewage, schools, parks and other public requirements, and to preserve and increase the amenities of the city, all as set forth in Section 2A of 1975 Mass. Acts 808.

SECTION 1.3 AUTHORITY

This chapter has been enacted pursuant to authority granted by G.L. c. 40A,, the Zoning Act, and the Home Rule Amendment, Article 89 of the Massachusetts Constitution.

SECTION 1.4 APPLICABILITY

The provisions of this chapter shall apply to all buildings, structures or land within the boundaries of the city.

SECTION 1.5 INTERPRETATION

In interpreting and applying the provisions of this chapter, the requirements contained herein are declared to be the minimum requirements for the purposes set forth, and also, as further set forth by G.L. c. 40A, as amended.

SECTION 1.6 EFFECT OF CHAPTER ON COVENANTS AND AGREEMENTS

This chapter shall not nullify the more restrictive provisions of covenants, agreements or other ordinances or laws, but shall prevail notwithstanding such provisions which are less restrictive.

SECTION 1.7 AMENDMENT OF CHAPTER

The city council may from time to time amend this chapter or a district boundary indicated upon the zoning map in the manner prescribed by G.L. c. 40A and all amendments thereto. A person making application to the city council for a zoning change in accordance with this amendment, shall prepay to the city clerk at the time of filing of such application, such fee as may be required by the city clerk.

SECTION 1.8 SEVERABILITY

It is hereby declared to be the intention of the city council that the actions, paragraphs, sentences, clauses and phrases of this ordinance are severable, and if any phrase, clause, sentence, paragraph or section of this ordinance shall be declared unconstitutional or otherwise invalid by the valid judgment or decree of a court of competent jurisdiction, such unconstitutionality or invalidity shall not affect any of the remaining phrases, clauses, sentences, paragraphs, and sections of this ordinance.

ARTICLE II DEFINITIONS

For the purpose of this chapter, certain words and terms are hereby defined. The definitions set forth in the state building code of the city are also applicable, where appropriate, with respect to words and terms not defined herein. Words used in the present tense include the future; the singular number includes the plural and the plural the singular; the word "lot" includes "plot"; the word "building" includes "structure"; the word "occupied" includes the words "designed, arranged or intended to be occupied." Where the verb "use" is employed, it shall be construed as if followed by the words "or is intended, arranged, designed, built, altered, converted, rented or leased to be used"; the word "shall" is mandatory and is not directory. However, all definitions must be in conformity with G.L. c. 40A, as amended.

ABANDONED USE: A use which has been discontinued for twenty-four (24) consecutive months.

ACCESSORY BUILDING: A building devoted exclusively to a use subordinate to the principal use and, customarily, incidental to the principal use of the lot.

ACCESSORY SIGN: A sign which is subordinate to the principal use and customarily incidental to, and on the same lot as, the principal use.

ACCESSORY USE: A use subordinate to the principal use, and customarily incidental to, and on the same lot as the principal use.

ADULT ENTERTAINMENT ESTABLISHMENT: Any of the following businesses:

Adult bookstore: An establishment having as a substantial or significant portion of its stock in trade printed matter, books, magazines, picture periodicals, motion picture films, video cassettes, or coin operated motion picture machines for sale, barter or rental which are distinguished or characterized by their emphasis on matter depicting, describing or relating to "sexual conduct" as that term is described in G.L., c. 272, s.31; "sexual devices" or an establishment having for sale sexual devices, objects, tools, or toys which are distinguished or characterized by their association with sexual activity, including sexual conduct or sexual excitement as defined in G.L. c. 272, s.31, or an establishment with a segment or section devoted to the sale or display of such materials.

Adult motion picture theatre: An enclosed building with a capacity of 50 or more persons used for presenting material distinguished or characterized by an emphasis on matter depicting, describing, or relating to "sexual conduct" as defined in G.L. c. 272, s. 31 for observation by patrons therein.

Adult mini motion picture theatre: An enclosed building with a capacity for less than fifty (50) persons used for presenting material distinguished or characterized by an emphasis on matter depicting, describing, or relating to "sexual conduct" as defined in G.L., c. 272, s. 31 for observation by patrons therein.

ANTENNA: Any exterior apparatus designed for telephonic, radio, television, personal communications services (PCS), pager network, or any electromagnetic waves of any bandwidth. An antenna can either be attached to a tower or attached to a building.

ARTIST: A person regularly engaged in and who derives a substantial portion of his/her annual income from art or creative work either written, composed, created or executed for a "one of a kind, limited" production exclusive of any piece or performance created or executed for industry oriented distribution or related production.

ARTIST LIVE/WORK SPACE: The use of all or a portion of a building for both art use and the habitation of artists.

ART USE: The production of art or creative work either written, composed, created or executed for a "one of a kind, limited" production exclusive of any piece or performance created or executed for industry oriented distribution or related production. Such use may include the fine and applied arts including painting or other like picture, traditional and fine crafts, sculpture, writing, creating film, creating animation, the composition of music, choreography and the performing arts.

ART/CRAFT STUDIO: A facility for art use as defined above that is separate from any residential uses, occupied by no more than three (3) individuals at any one time.

ASSISTED LIVING FACILITY (ALF): A facility as defined in 651 CMR 12.02.

AUTOMOTIVE USES: As the term is used in the Table of Use Regulations herein shall mean motor vehicles of any kind, including but not limited to automobiles, trucks, sport utility vehicles, motorcycles, mopeds, recreational vehicles, snowmobiles, travel trailers, and the like.

Autobody or Paint Shop shall mean a painting facility provided all servicing and repairs are carried out inside the building.

Automotive Repair Garage shall mean a repair facility not including autobody or paint shops, provided all servicing and repairs are carried out inside the building.

Automotive Sales, indoor shall mean a sales place for new or used cars conducted entirely with a building, or rental agency for autos, trailers, or motorcycles conducted entirely within a building provided no major repairs are made.

Automotive Sales, outdoor shall mean a sales place or storage place for new or used cars conducted partly or wholly on an open lot, or rental agency for automobiles, trailers, motorcycles conducted partly or wholly outdoors.

Automotive Service Station shall mean a filling station, with or without self-service gasoline pumps, where no major repairs are made provided that all lubrication and minor repairs are carried out inside the building.

Car Washing Establishment shall mean a facility using mechanical equipment for purposes of cleaning automobiles and other vehicles.

BANNER: A temporary or permanent sign made of fabric or fabric-like material which may be free-hanging or attached at all corners.

BOARDING OR LODGING HOUSE: a house where lodgings are let to four or more persons not within second degree of kindred to the person conducting it, and shall include fraternity houses and dormitories of educational institutions, but shall not include dormitories of charitable or philanthropic institutions or convalescent or nursing homes licensed under G.L. c. 111, s. 71 or rest homes so licensed, or group residences licensed or regulated by agencies of the commonwealth.

BUILD: The word "build" shall include the words "erect," "construct," "alter," "enlarge," "modify," "excavate," "fill," and any others of like significance.

BUILDING: The word "building" shall include the word "structure" unless the context unequivocally indicates otherwise. "Building" shall also mean any three-dimensional enclosure by any building materials of any space for use or occupancy, temporary or permanent, and shall include foundations in the ground, also all parts of any kind of structure above ground except fences and field or garden walls or embankment retaining walls.

BUILDING HEIGHT: The vertical distance of the highest point of the roof beam in the case of a flat roof and of the mean level of the highest gable of a sloping roof as measured from the mean ground level all elevations of a building.

BUSINESS OR PROFESSIONAL OFFICE: A building or part thereof, for the transaction of business or the provision of services exclusive of the receipt, sale, storage, or processing of merchandise, including banks and other financial institutions.

CHILD CARE FACILITY: A day care center or school age child care program, as those terms are defined in G.L. c. 28A, s. 9 and exempt from regulation pursuant to G.L. c. 40A, s. 3.

CLUB OR LODGE, PRIVATE: Buildings, structures and premises used by a nonprofit social or civic organization, or by a nonprofit organization catering exclusively to members and their guests for social, civic, recreational, or athletic purposes and provided there are no vending stands, merchandising, or commercial activities except as may be required generally for the membership and purposes of such organization.

COMMERCIAL RECREATIONAL FACILITY, INDOOR: A structure for recreational, social or amusement purposes, which may include as an accessory use the consumption of food and drink, including all connected rooms or space with a common means of egress and entrance. Such facilities shall include theatres, concert halls, dance halls, skating rinks, bowling alleys, health clubs, dance studios, or other commercial recreational centers conducted for or not for profit; provided, however, that activities connected therewith shall be at least 45 feet from any lot line in residential districts.

COMMERCIAL RECREATIONAL FACILITY, OUTDOOR: Golf course, driving range, bathing beach, sports club, horseback riding stable, boathouse, game preserve, marina or other commercial recreation carried on in whole or in part outdoors, whether for profit or nonprofit, except those activities more specifically designated in this ordinance.

CONTRACTOR'S GARAGE: A garage or storage unit, which may also include an office and serve as an official business address, where a licensed building tradesman or contractor stores supplies, vehicles, tools, and other equipment that is normally part of their commercial activities, provided that no major manufacturing or repair activity occurs on the premises. [Ord. 07-13-04]

CORNICE: The exterior trim of a structure at the meeting of a roof and a wall.

DORMITORY: A building used as group living quarters for a student body or religious order as an accessory use for a university, college, boarding school, convent, similar institutional use.

DRIVEWAY: A vehicular passageway providing access between a street or way and a parking space, parking area, garage, or loading area, or between two such areas on a lot or lots.

DWELLING, ATTACHED: A dwelling unit designed for or occupied as a residence and separated from another dwelling unit on one (1) or more sides of a vertical party wall.

DWELLING, DETACHED: A building designed for or occupied as a residence and separated from any other building except accessory buildings by side yards.

DWELLING, MULTIFAMILY: A building containing three (3) or more dwelling units, and wherein units may be located on more than one (1) floor.

DWELLING, SINGLE FAMILY: A detached dwelling, other than a mobile home designed for or occupied by one (1) family.

DWELLING, TWO- FAMILY: A freestanding building designed, or intended exclusively for residential use, containing two (2) dwelling units, each family occupying a single-dwelling unit typically situated one (1) above the other but may also be two (2) attached dwelling units.

DWELLING UNIT: Any room or suite of rooms forming a habitable unit for one (1) family with its own cooking and food storage equipment and its own bathing and toilet facilities and its own living, sleeping and eating areas wholly within such room or suite of rooms.

EDUCATIONAL USE, EXEMPT: Use of land or structures for educational purpose exempt from regulation pursuant to G.L. c. 40A, s. 3.

EDUCATIONAL USE, NONEXEMPT: Use of and or structures for educational purpose not exempt from regulation pursuant to G.L. c. 40A, s. 3.

FAÇADE: The exterior face of building which is treated in an architectural fashion.

FAMILY: An individual, or two (2) or more individuals related by blood, marriage, or adoption living together, or not more than three (3) individuals not related by blood, marriage, or adoption living together.

FLASHING SIGN: An illuminated sign in which the artificial light is not maintained in a stationary or constant intensity.

FLOOR AREA, GROSS: The sum, in square feet, of the gross horizontal areas of all the floors of a building, as measured from the exterior faces of the exterior walls or centerlines of walls separating two (2) buildings, including:

1. Roofed porches and balconies, whether enclosed or unenclosed and unroofed porches and balconies above the second floor.
2. Elevator shafts and stairwells on each floor.
3. Accessible attic space with clear headroom of at least five feet, whether finished or unfinished, except as hereafter excluded. Accessible attic space includes spaces that are only accessible via a pull-down stair or ceiling hatch.
4. Interior balconies, mezzanines and penthouses.
5. Basement and cellar areas, except as hereafter excluded.

The following areas are excluded from the gross floor area:

1. Areas used for parking garages, accessory parking or off-street loading purposes.
2. Basement and cellar areas devoted exclusively to uses accessory to the operation of a commercial or industrial building.
3. Open or lattice-enclosed exterior fire escapes, and unroofed porches and balconies no higher than the second floor.
4. Attic space and other areas for elevator machinery in any building or mechanical equipment accessory to the operation of a commercial or industrial building.
5. Attic space that is not accessible and attic space with less than five feet of clear headroom.

[Ord. 07-13-04]

FLOOR AREA RATIO: The ratio of gross floor area of a structure to the total area of the lot.

HOME OCCUPATION: An activity customarily carried on by the permanent resident of a dwelling unit, inside the dwelling unit, requiring only customary home or hobby-type equipment, but excluding the following:

1. The sale of articles produced elsewhere than on the premises for the purpose of sale;
2. The storage of materials or products outside of a principal building;
3. Motor vehicle repair, landscaping yard or contractor's yard.

Home occupations include but are not limited to activities conducted by recognized professions, fine art studios, dressmaking, and teaching of not more than four (4) pupils simultaneously.

HOTEL or MOTEL: A building or buildings intended and designed for transient, overnight or extended occupancy, divided into separate units within the same building with or without a public dining facility. If such hotel or motel has independent cooking facilities, such unit shall not be occupied by any guest for more than four (4) continuous months, nor may the guest reoccupy any unit within thirty (30) days of a continuous four-month stay, nor may the guest stay more than six (6) months in any calendar year.

LIGHT MANUFACTURING: Fabrication, assembly, processing, finishing work or packaging.

LINTEL: Is the horizontal support member across the head of a door or window.

LOT: The whole area of a single parcel of land with ascertainable boundaries in single or joint ownership, undivided by a street, approved and established by deed(s) or record, or a segment of land ownership defined by lot boundary lines on a land subdivision plan duly approved and recorded.

LOT AREA: The horizontal area of the lot exclusive of any area in a public or private way open to public use and exclusive of any land below the high water line of any water body contained therein. At least seventy (70) percent of lot area required for zoning compliance shall be land other than wetland.

LOT AREA (I.P.H.R. DISTRICT) : See Section 5.1.5.

LOT COVERAGE: The area of a lot covered by the aggregate of the maximum horizontal cross-section area of all buildings on a lot exclusive of cornices, eaves, gutters, chimneys, bay windows, balconies and terraces.

LOT FRONTAGE: A continuous line between side lot lines measured along the edge of a street and also provided that there are both rights of access and potential safe year-round practical vehicular access, unimpeded by:

1. wetlands, unless a wetlands crossing has been approved by the Conservation Commission; or
2. topography which prevents a proposed driveway from meeting the requirements of Section 6.7 of this ordinance, unless the Planning Board has granted an exception as provided in said Section 6.7.2 and 6.7.3; or
3. other natural barriers

between the street line and a potential building site, and the street has been determined by the Planning Board to provide adequate access to the lot under the provisions of the Subdivision Control Law and the City of Lowell Subdivision Regulations. On any lot bounded on more than one (1) side by a street or streets, frontage requirements shall apply for at least one (1) of the abutting streets.

LOT LINE, FRONT: A line dividing a lot from a street.

LOT LINE, REAR: Except for triangular lots, corner lots, and other such lots, the lot line opposite the front lot line.

MANUFACTURING: A use engaged in the basic processing and manufacturing of materials, or the manufacture from previously prepared materials, of finished products or parts, including processing, fabrication, assembly, treatment, packaging, incidental storage, sales and distribution of such products, including, but not limited to, the following types of industries: food and kindred products, apparel, textiles and related products, electronic and electrical products, furniture and fixtures, printing and publishing, paper and allied products, plastic and allied products, primary and fabricated metal products, machinery, transportation and related equipment products, instruments and related products, including the storage of raw materials and containers used in or incidental to any of the foregoing provided that any open lot storage shall not exceed 12 feet in height and that the area so used shall be enclosed by a tight wall or fence of at least the same height of the material so stored.

MASSAGE: Any method of pressure on or friction against, or stroking, kneading, rubbing, tapping, pounding, vibrating, or stimulating of external parts of the human body with the hands or with the aid of any mechanical or electrical apparatus or appliances, with or without such supplementary aids as rubbing alcohol, liniments, antiseptics, oils, powder, creams, lotions, ointment or other such similar preparations commonly used in the practice of massage under such circumstances that it is reasonably expected that the person to whom the service is provided, or some third person on his or her behalf, will pay money or give any other consideration or any gratuity therefor. The practice of massage shall not include the following individuals while engaged in the personal performance of duties or their respective professions:

1. Physicians, surgeons, chiropractors, osteopaths, or physical therapists who are duly licensed to practice their respective professions in the Commonwealth of Massachusetts.
2. Nurses who are registered under the laws of the Commonwealth of Massachusetts.
3. Barbers and beauticians who are duly licensed under the laws of the Commonwealth of Massachusetts, except that this exclusion shall apply solely to the massage of the neck, face, scalp and hair of the customer or client for cosmetic or beautifying purposes.

MEDICAL OR DENTAL CENTER OR CLINIC: A building designed and used for the diagnosis and treatment of human patients that does not include overnight care facilities.

MUNICIPAL FACILITY: Government office, service, or facility, including police and fire stations, libraries, and administrative offices, owned or operated by the City of Lowell, the Lowell School Department, or any of their departments or any non-residential facilities of the Lowell Housing Authority.

NONCONFORMING STRUCTURE: Any structure which does not conform to the dimensional requirements in this chapter or to the parking and loading requirements of this chapter for the district in which it is located; provided, that such structure was in existence and lawful at the time the applicable provisions of this or prior zoning ordinances became effective.

NONCONFORMING USE: A use of a building, structure or lot that does not conform to the use regulations of this chapter for the district in which it is located; provided, that such use was in existence and lawful at the time the applicable provisions of this or prior zoning ordinances became effective.

OPEN SPACE, LANDSCAPED: The parts of a lot designed and developed for pleasant appearance in trees, shrubs, ground cover and grass, including other landscaped elements, such as natural features of the site, walks and terraces. Such space shall not include rooftops or areas of lot used for parking, access drives or other hard-surfaced areas except walks, and terraces as noted above, designed and intended for non-vehicular use. Such hard-surfaced walks and terraces shall not exceed twenty-five (25) percent of the total required landscaped open space.

OPEN SPACE, USABLE: The parts of a lot designed and developed for outdoor use by the occupants of the lot for recreation, including swimming pools, tennis courts or similar facilities, for gardens or for household service activities such as clothes drying, which space is at least seventy-five (75) percent open to the sky, free of automotive traffic and parking and readily accessible by all those for whom it is required. Open space shall be deemed usable only if at least seventy-five (75) percent of the area has a grade of less than eight (8) percent.

PARKING GARAGE OR PARKING AREA, NONRESIDENTIAL: A building, structure, lot or part of a lot designed or used for the shelter or storage of commercial or noncommercial motor vehicles used by the occupants or users of a lot or lots devoted to use or uses not permitted in a residence district, in which space is available either to long-term or to transient or casual parkers.

PARKING GARAGE OR PARKING AREA, RESIDENTIAL: A building, structure, part of a building or structure, lot or part of a lot designed or used for the shelter or storage of noncommercial motor vehicles used by the occupants or users of a lot or lots devoted to a use or uses permitted in a residence district and in which no space is rented for casual or transient parkers.

PERMANENT SIGN: A sign intended to be used for a period greater than thirty (30) days.

PLANNED RESIDENTIAL DEVELOPMENT: A land use category allowed by special permit that may include the subdivision of land for multiple residential buildings and other compatible land use activities as outlined in Section 8.2 herein.

PLANNED UNIT DEVELOPMENT: A mixed use development on a plot of land containing a minimum of the lesser of sixty thousand (60,000) square feet or (5) five times the minimum lot size of the zoning district or as otherwise indicated in this Code, in which a mixture of residential, open space, commercial, industrial or other uses and a variety of building types to be allowed by special permit as provided for herein.

PUBLIC SERVICE FACILITY: Public facilities including but not limited to transformer stations, substations, pumping stations, telephone exchanges, provided that in residence districts such public service facility is considered essential to service such a residential area and that no public business office, storage yard or storage building is operated in connection with the facility.

RECOGNIZED PROFESSION: Architecture, engineering, law, medicine, dentistry or other activity in which specialized services to clients are performed by persons possessing a degree from a recognized institution of higher learning demonstrating successful completion of a prolonged course of specialized intellectual instruction and study, and possessing evidence of professional capability such as membership in a professional society requiring standards of qualification for admission or licensing by the Commonwealth.

RECYCLING FACILITIES: A facility in which recyclables, such as newspapers, magazines, books and other paper products; glass; metal; asphalt products; and other materials are recycled, reprocessed, and treated to return such products to a condition in which they may be again used as a new product; provided, however, that motor vehicle salvage yards and graveyards; junkyards; and solid waste transfer facilities shall not be deemed a "recycling facility" for the purposes of this definition.

RELIGIOUS USE, EXEMPT: Use of land or structures for religious purpose exempt from regulation pursuant to G.L. c. 40A, s. 3.

RESTAURANT: A building, or portion thereof, including but not limited to a lunch room, cafeteria, ice cream parlor, containing tables and/or booths for at least two-thirds (2/3) of its legal capacity, which is designed, intended and used for the indoor sales and consumption of food prepared on the premises, except that food may be consumed outdoors in landscaped terraces, designed for dining purposes, which are adjuncts to the main indoor restaurant facility. Alcoholic and nonalcoholic beverages may be served, subject to local licensing. Entertainment shall be limited to music with no dancing. No drive-up or drive-through window shall be employed.

RESTAURANT, FAST-FOOD: An establishment whose principal business is the sale of pre-prepared or rapidly prepared food directly to the customer in a ready to consume state for consumption either within the restaurant building or off premises and usually requires ordering food at a counter or a drive-through window.

RETAIL: A facility selling goods but not more specifically listed in the Table of Use Regulations.

SELF-STORAGE FACILITY or MINI-WAREHOUSE: A facility where individual portions of the space are rented to consumers for the temporary storage of business or personal items.

SERVICE BUSINESS: Any of the following uses:

1. Barber, beauty shop, salon for hair, nails, or tanning, laundry and dry cleaning pick-up agency, shoe repair, self-service laundry or other similar uses;
2. Hand laundry, dry cleaning or other similar use, provided personnel on premises is limited to five employees;
3. Printing shop, photographers studio, career, or other similar use, provided personnel on premises is limited to five employees.

SIDEWALK: A paved, surfaced, or leveled area, paralleling and usually separated from the street, used as a pedestrian walkway.

SIGN: A structure which consists of a device, light, letter, word, model, banner, pennant, trade flag, logo, insignia, or representation which advertises, directs, or announces a use conducted, goods, products, services, or facilities available which influence persons, or conveys information, including electric signs, but excluding window displays or merchandise and signs which are incidental to the displayed merchandise.

SIGN, AREA OF: The area of a sign shall be measured as follows:

1. For a sign, either freestanding or attached, the area shall be considered to include all lettering, wording and accompanying designs and symbols, together with the background, whether open or enclosed, on which they are displayed, but not including any supporting framework and bracing which are incidental to the display itself.
2. For a sign painted upon or applied to a building, the area shall be considered to include all lettering, wording and accompanying designs or symbols, together with any background of a different color than the natural color of the building.
3. For a sign consisting of individual letters or symbols attached to or painted on a surface, building, wall or window, the area shall be considered to be that of the smallest rectangle or other shape which encompasses all the letters and symbols.

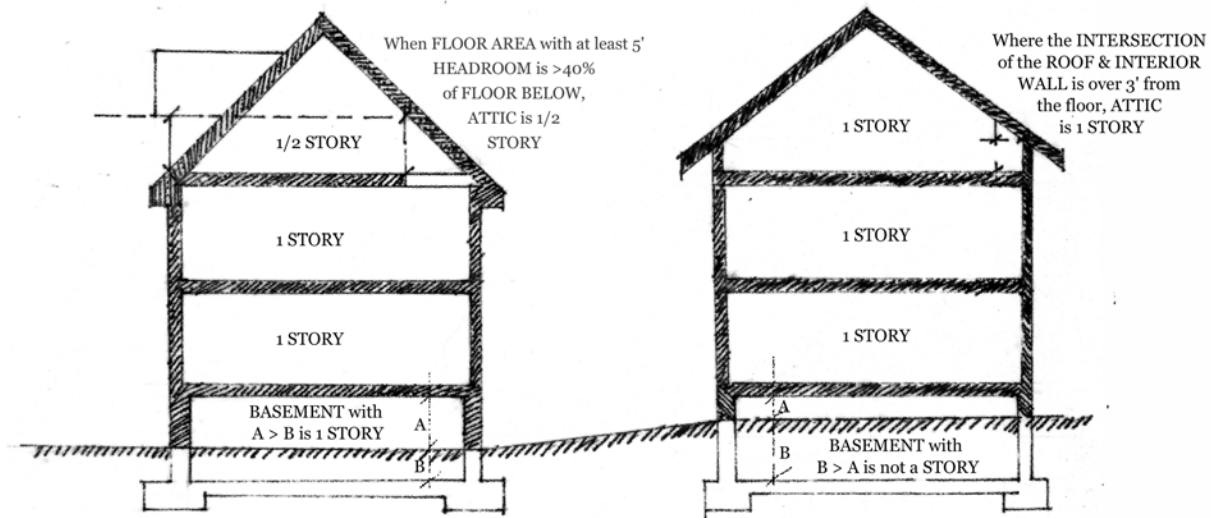

SIGN, ON PREMISES: Sign or other advertising device which advertises or indicates only the person occupying the premises on which it is located, the merchandise for sale or the activity conducted thereon.

SILL: The horizontal exterior member below a window.

SPECIAL PERMIT GRANTING AUTHORITY: The Board of Appeals of the City of Lowell as defined herein.

STATE BUILDING CODE (SBC): The latest edition of the Massachusetts State Building Code.

STORY: that part of a building or structure between any floor and the floor or roof above. In no instance shall any cellar, basement or parking area that has more than half of its clear height below the average finished elevation of the finished lot grade, be considered a story. Steeples and projections used or intended to be used exclusively for utility service or access to the roof shall not be deemed a story.

STORY, HALF: A space under a sloping roof that has the line of intersection of the roof and the wall face not more than three (3) feet above the floor level and in which space the possible floor area with head room of five feet or less occupies at least 40 percent of the total floor area of the story directly beneath.

STREET: An accepted city way, or a way established by or maintained under county, state, or federal authority, or a way built to the specifications of a subdivision plan approved in accordance with the subdivision control law, or a way determined by the planning board to have sufficient width, suitable grades, and adequate construction to provide for the needs of vehicular traffic in relation to the proposed use of the land, and for the installation of municipal services to serve such land and the buildings erected or to be erected thereon.

TELECOMMUNICATIONS FACILITY: Any structure, antenna, tower, or other device used for commercial purposes and which provides mobile wireless services, unlicensed wireless services, cellular phone services, specialized mobile radio communications (ESMR), personal communications service (PSC), or common carrier wireless exchange access services.

TELECOMMUNICATIONS TOWER: Any structure that is designed and constructed primarily for the purpose of supporting one or more antennas. The term telecommunications tower shall include self-supporting lattice towers, guy towers, monopole towers, radio and television transmission towers, microwave towers, common-carrier towers, cellular phone towers, and the like.

TEMPORARY SIGN: A sign intended to be used for a period of thirty (30) days or less.

TERRACE: A paved surface on grade intended for private or shared use between residences. Not included are porches, decks or balconies.

TOWER HEIGHT: The vertical distance from the mean grade (average grade around the perimeter) to the highest point of the structure.

TOWNHOUSE DEVELOPMENT: Development of individual dwelling units in a row of at least three such units in which each unit has its own access to the outside, no unit is located over another unit, and each unit is separated from any other unit by one or more vertical common fire-resistant walls.

TRAILER: A highway vehicle designed, constructed and equipped for use as a dwelling and which is capable of being hauled or towed, or is self-propelled, including any such vehicle so converted as would make it immobile.

TRANSIENT: A person or stay which is brief or temporary as a guest.

USE: The purpose for which land or a building is arranged, designed or intended, or for which either land or a building is or may be occupied or maintained.

VETERINARY ESTABLISHMENT: A place for the treatment of animals, including kennels and pet shops, provided that in business districts all animals are kept indoors and there are no noise or odors perceptible from adjoining establishments or buildings.

WAREHOUSE: A building used primarily for the storage of goods and materials, for distribution, but not for sale on the premises, but not including open storage or bailing of junk, scrap metal, rags, waste paper or used rubber.

WETLAND: That area of land which may not be excavated or filled as of right and is subject to federal, state, county or town regulations governing lakes, ponds, rivers, streams, fresh water swamps and other wetlands features as identified by the Wetland Protection Act, as determined by the conservation commission or DEP.

WHOLESALE: The sale of goods in large quantity for the purpose of resale and completely enclosed in a building. Such uses shall not include the sale or transfer of flammable liquids, gas, explosives or other potentially hazardous materials.

YARD, FRONT: The yard extending across the full width of the lot and lying between the front street line, or the building line and the nearest part of a building.

YARD, REAR: The yard extending across the full width of the lot and lying between the rear line of the lot and the nearest part of a building.

YARD, SIDE: The yard between the side line of the lot and the nearest part of a building and extending from the front yard to the rear yard, or in the absence of either such yards, to the front or rear lot line as may be.

ARTICLE III DISTRICTS

SECTION 3.1 ESTABLISHMENT

For the purpose of this chapter, the city is hereby divided into seven (7) types of Residential, five (5) types of Business and four (4) types of Industrial Districts as follows:

Residential Districts

Residence S1 District –S1– Single-Family Dwellings
Residence S2 District– S2– Single-Family Dwellings
Residence TF District –TF- Two-Family Dwellings
Residence UM2 District –UM2- Urban Multifamily Dwellings
Residence SM2 District –SM2- Suburban Multifamily Dwellings
Residence M3 District –M3-Multifamily Dwellings
Residence M-4 District–M4–Acre Urban Residential

Commercial Districts

Business B1 District-B1-Local Business
Business B2 District – B2- Limited Business
Business B3 District – B3-General Business
Business B4 District- B4- Mixed Retail/Residential or Office/Residential

All land in the City of Lowell that was located in a B2A Intermediate Business District on the effective date of this ordinance is hereby rezoned to B2 Limited Business and is subject the applicable requirements of that zoning district..

Industrial Districts

Industrial IA District – IA- Warehousing, Storage and Light Manufacturing
Industrial IB District – IB – Heavy Industry
Industrial IP District – IP – Industrial Parks
Industrial IPHR District – IPHR – Industrial Park High Rise

Planned Development Districts

Planned Development – Medical/Institutional (PD-MI) – see Section 10.1
Planned Development – Mixed Use (PD-MU) – see Section 10.2

Overlay Districts

In addition, there are several overlay districts, as set forth in Article IX.

SECTION 3.2 ZONING MAP

The boundaries of each of the districts are hereby established as shown on the map entitled Zoning Map of the City of Lowell, April 6, 1966, as or hereafter amended, which map is made a part of this chapter. The zoning map and all boundaries, notations and other data shown thereon are made by this reference as much a part of this chapter as if fully described and detailed herein. The map shall be in the custody of the city clerk but filed in the office of the department of code and inspections. All changes in zoning districts or otherwise shall be reflected by proper zoning map changes.

1. The location of the overlay districts are as set forth in Article IX.

SECTION 3.3 INTERPRETATION OF MAP

3.3.1 General. Where uncertainty exists with respect to the boundaries of the various districts as shown on the Zoning Map, the following rules shall apply:

1. Where the district boundary is a street or waterway, the boundary line shall be the centerline of the street or waterway.
2. Where the boundary line is indicated approximately parallel to the street, it shall be taken as parallel thereto. The actual location of such boundary line, unless otherwise clearly indicated, shall be scaled to determine the distance from the nearest street right of way line. If there is any variance between the scaled distance from the boundaries to the street line and the distance as marked in feet upon the map, the latter shall govern.
3. Where the districts designated on the map are bounded by lot lines, the lot lines shall be construed to be the boundary lines, unless they are otherwise indicated on the map.
4. Where a boundary line between districts divides a lot in single ownership upon the effective date of this ordinance or upon the effective date of any amendment changing the boundaries of one (1) of the districts in which the lot lies, the regulations controlling the more restrictive district may be applied to the entire lot. Alternatively, the portion of the land in the more restrictive district may be used to satisfy the dimensional requirements of the less restrictive district where no active use is made such portion. All uses associated with the less restrictive district shall be located therein. The land associated with the less restrictive use shall be screened from adjacent residentially used lot(s) in accordance with the requirements set forth in Section 6.5 or appropriately fenced.
5. When a lot in one (1) ownership is situated part in the city and part in an adjacent city or town, the regulations and restrictions of this chapter shall be applied to that portion of such lot as lies in the city in the same manner as if the entire lot were situated therein; provided, however, that by the grant of a special permit, the Planning Board may vary this requirement.

ARTICLE IV. USE REGULATIONS

SECTION 4.1 GENERAL

In each district, the use of land, buildings and structures shall be regulated as set forth in this Article IV and as provided elsewhere in this chapter.

SECTION 4.2 TABLE OF USE REGULATIONS

See Article XII.

4.2.1 Key. A use listed in The Table of Uses is permitted as a right in any district under which it is denoted by the letter “Y.” It is prohibited if designated by the letter “N.” If designated in the table by the letters “SP,” the use may be permitted as a special permit only if the Board of Appeals determines and grants a special permit therefore as provided in Section 11.3, subject to such further restrictions as the Board may establish.

SECTION 4.3 ACCESSORY USES

4.3.1 General. The following accessory uses shall be permitted or authorized by special permit if on the same lot as the building or use to which it is accessory, as set forth in the Table of Accessory Uses, except as otherwise provided herein.

4.3.2 Table of Accessory Uses. See Article XIII.

4.3.3. Home Occupation - As of Right. A home occupation may be allowed as of right provided that it:

1. is conducted solely within a dwelling and solely by the person(s) occupying the dwelling as a primary residence;
2. is clearly incidental and secondary to the use of the premises for residential purposes and is the only home occupation on the lot;
3. does not produce offensive noise, vibration, smoke, dust, odors, heat, lighting, electrical interference, radioactive emission or environmental pollution;
4. does not utilize exterior storage of material or equipment;
5. does not exhibit any exterior indication, including signs, of its presence or any variation from residential appearance;
6. does not produce any customer, pupil, employee or client trips to the occupation site and has no nonresident employees;
7. is registered as a business with the City Clerk.

4.3.4. Home Occupation - By Special Permit. A home occupation may be allowed by special permit issued by the Board of Appeals, provided that it:

1. fully complies with Sections 4.3.3. subsections 2, 3, 4, and 7, and is the only home occupation on the lot;
2. is conducted within a dwelling solely by the person(s) occupying the dwelling as a primary residence and, in addition to the residents of the premises, by not more than three (3) additional employees;

3. does not exhibit any exterior indication of its presence, or any variation from residential appearance, except for a sign or name plate in compliance with Section 6.3;
4. a special permit for such use is granted by the Board of Appeals, subject to conditions including, but not limited to, restriction of hours of operation, maximum floor area, off-street parking, and maximum number of daily customer vehicle trips. Such special permit shall be limited to five years, or the transfer of the property, whichever first occurs.

4.3.5 Special Rules.

- 1 In all districts, the renting of rooms or the furnishing of table board by a resident owner to not more than two (2) nontransient roomers or boarders shall be considered as an accessory use provided no separate cooking facilities are maintained, and no sign or nameplate is displayed.
2. Provisions of a garage or parking space for occupants, employees, customers, or visitors shall be considered as an accessory use, provided where accessory to residential uses in Residential S1 and S2 Districts such garage or parking space shall be limited to the accommodation of five (5) passenger vehicles, or two (2) passenger vehicles for each dwelling unit, whichever is greater. The storage of any unregistered vehicle and/or repair of a vehicle is prohibited unless otherwise permitted by the respective use district.
3. In multifamily dwellings, hospitals or hotels with more than thirty (30) sleeping rooms, a newsstand, barbershop, dining room or similar service for occupants thereof, when conducted and entered only from within the building and no signs or advertising devices thereof are visible from outside the building, shall be considered as an accessory use.
4. In any district, the total area of uses accessory to the principal use, may not occupy more than twenty-five (25) percent of the floor area in a main building, and the total area of uses or buildings accessory to the principal use except for parking facilities and driveways may not occupy more than fifteen (15) percent of the entire area of the lot. In Residential Districts, an accessory building shall not be located nearer than ten (10) feet to the principal building or nearer than five (5) feet to any side or rear lot line or nearer to the front lot line than the minimum setback in the zoning district in which it is located.
5. In a Business or Industrial District only, a parking area, as an accessory use, located within 1000 feet of the primary use and for the parking of passenger cars of employees, customers or guests of commercial or institutional establishments, provided no charge is made for parking, and no sales or service operations are performed in the parking area.
6. In a Business or Industrial District only, parking or allowing to stand any motor vehicle and/or motor vehicle attachment (excluding recreational vehicles) having a gross vehicle weight of twelve thousand (12,000) pounds or more, or exceeding 24 feet in length, or having three (3) or more axles, for more than one-half (1/2) hour, on any day, at any time, where parking or standing a vehicle is not otherwise regulated by traffic regulation; provided that this regulation shall not apply during actual service delivery, or in the case of an emergency. Motor vehicles, regardless of size, owned or operated by the City of Lowell, the Commonwealth of Massachusetts, or the United States of America are hereby exempt from these regulations.

4.3.6 Temporary Building or Use. The commissioner of buildings may grant a permit for a temporary building or use incidental to a building development, which does not comply with the provisions of this ordinance, where reasonably required for such development. Such permit may be issued for an initial period of not more than one (1) year. In the case of a building, the application shall be accompanied by a bond and bill of sale to the city, effective in case the building is not removed prior to the expiration of the permit. Permits may be renewed by the commissioner of buildings for successive periods of not more than one (1) year each, not to exceed a total of three (3) years.

4.3.7 Conditions.

1. In a Residential District, an accessory use shall not involve the maintenance of a stock-in-trade or the use of signs, illumination, show windows, or displays, either exterior or interior, except such signs as are permitted by this ordinance.
2. No accessory building shall be used as a dwelling except in an Industrial District for the accommodation of a night watchman or janitor.

SECTION 4.4 ACCESSORY STRUCTURES

4.4.1 Conditions.

1. An accessory building in a Residential District shall not exceed sixteen (16) feet in height above the ground level.
2. Garages and other residential outbuildings with no more than one story of habitable space may exceed this height limitation to allow a roof pitches equal to that of the primary dwelling located on the same property. Under no circumstances shall the height of the accessory building exceed that of the primary dwelling.
3. No garage shall be provided nearer to the front street line than the prescribed minimum setback distance of the zoning district in which the lot is located.

SECTION 4.5 NONCONFORMING USES AND STRUCTURES

4.5.1 Applicability. This zoning ordinance shall not apply to structures or uses lawfully in existence or lawfully begun, or to a building or special permit issued before the first publication of notice of the public hearing required by G.L. c. 40A, s. 5 at which this zoning ordinance, or any relevant part thereof, was adopted. Such prior, lawfully existing nonconforming uses and structures may continue, provided that no modification of the use or structure is accomplished, unless authorized hereunder.

4.5.2 Nonconforming Uses. The Board of Appeals may award a special permit to change a nonconforming use in accordance with this section only if it determines that such change or extension shall not be substantially more detrimental than the existing nonconforming use to the neighborhood. Only the following types of changes to nonconforming uses may be considered by the Board of Appeals:

1. Change or substantial extension of the use;
2. Change from one nonconforming use to another, less detrimental, nonconforming use.

4.5.3 Nonconforming Structures. The Board of Appeals may award a special permit to reconstruct, extend, alter, or change a nonconforming structure in accordance with this section only if it determines that such reconstruction, extension, alteration, or change shall not be substantially more detrimental than the existing nonconforming structure to the neighborhood. In a Residential District, the nonconforming use shall be entirely within a structure. Only the following types of changes to nonconforming structures may be considered by the Board of Appeals:

1. Reconstructed, extended or structurally changed;
2. Altered to provide for a substantially different purpose or for the same purpose in a substantially different manner or to a substantially greater extent;

4.5.4 Variance Required. The reconstruction, extension or structural change of a nonconforming structure in such a manner as to increase an existing nonconformity, or create a new nonconformity shall require a variance; provided,

however, that the extension of an exterior wall at or along the same nonconforming distance within a required yard, shall require the issuance of a special permit from the Board of Appeals.

4.5.5 Nonconforming Single and Two Family Residential Structures. Nonconforming single and two family residential structures may be reconstructed, extended, altered, or structurally changed upon a determination by the Building Commissioner that such proposed reconstruction, extension, alteration, or change does not increase the nonconforming nature of said structure. Any of the following circumstances shall not be deemed to increase the nonconforming nature of said structure:

- a. alteration to a structure which complies with all current setback, yard, building coverage, and building height requirements but is located on a lot with insufficient area, where the alteration will also comply with all of said current requirements.
- b. alteration to a structure which complies with all current setback, yard, building coverage, and building height requirements but is located on a lot with insufficient frontage, where the alteration will also comply with all of said current requirements.
- c. alteration to a structure which encroaches upon one or more required yard or setback areas, where the alteration will comply with all current setback, yard, building coverage and building height requirements (the provisions of this clause c) shall apply regardless of whether the lot complies with current area and frontage requirements.
- d. alteration to the side or face of a structure which encroaches upon a required yard or setback area, where the alteration will not encroach upon such area to a distance greater than the existing structure (the provisions of this clause d) shall apply regardless of whether the lot complies with current area and frontage requirements.
- e. alteration to a nonconforming structure which will not increase the footprint of the existing structure provided that existing height restrictions shall not be exceeded.

In the event that the Building Commissioner determines that the nonconforming nature of such structure would be increased by the proposed reconstruction, extension, alteration, or change, the Board of Appeals may, by special permit, allow such reconstruction, extension, alteration, or change where it determines that the proposed modification will not be substantially more detrimental than the existing nonconforming structure to the neighborhood.

4.5.6 Abandonment or Non-Use. A nonconforming use or structure which has been abandoned, or not used for a period of two years, shall lose its protected status and be subject to all of the provisions of this zoning ordinance.

1. Notwithstanding the above, a nonconforming residential structure which has been abandoned, or not used for a period of two years, may reestablish its protected status upon the grant of a special permit by the Board of Appeals. No such special permit shall be granted unless the structure has adequate parking to serve the premises. The required parking may be located either on site or on another lot.

4.5.7 Reconstruction after Catastrophe or Demolition. A nonconforming structure may be reconstructed after a catastrophe or after demolition in accordance with the following provisions:

1. Reconstruction of said premises shall commence within two years after such catastrophe or demolition.
2. In the event of demolition and reconstruction, a special permit shall be required from the Board of Appeals prior to such demolition. The Board shall not grant such special permit unless the proposed reconstruction is determined to be compatible in style and scale with the existing neighborhood and off-street parking is provided in accordance with Section 6.1.

4.5.8 Reversion to Nonconformity. No nonconforming use shall, if changed to a conforming use, revert to a nonconforming use.

ARTICLE V. DIMENSIONAL REQUIREMENTS

SECTION 5.1 TABLE OF DIMENSIONAL REGULATIONS

No building or structure shall be built nor shall any existing building or structure be enlarged which does not conform to the regulations as to maximum ratio of floor area to lot area, minimum lot sizes, minimum lot area for each dwelling unit or equivalent, minimum lot frontage, minimum dimensions of front, side and rear yards, and maximum height of structures, in the several districts as set forth in the Table of Dimensional Regulations, except as hereinafter provided.

PROPOSED:

District	Max Floor Area Ratio	Min. Lot Size (sq. ft.)	Min. Lot Area Per D.U. (sq. ft.)	Min. Lot Frontage (ft.)	Min. Front Yard (ft.)	Min. Side Yard (ft.)	Min. Rear Yard (ft.)	Usable** Open Space (% of gross floor area)	Max. Height	Max. Stories
S1	0.5	10,000	N.A.	75	25	10 sum of 25	25	--	35	2.5
S2	0.5	7,000	N.A.	65	20	10 sum of 25	20	--	32	2.5
TF	0.75	6,000	3,000	65	20	10 sum of 25	20	30	32	2.5
SM-2	1.00	6,000	2,000	60	15	10 sum of 25	20	25	35	3
UM-2	1.25	6,000	1,500	55	15	10 sum of 25	20	25	35	3
M3	1.5	6,000	1,000	50	15	10	20	20	65	7
M4	1.5	3400	850	40	0†	3 sum of 20	20	--	35	3
B1	1.0	--	--	25	0†	--	20	--	40	3
B2	1.5	--	--	25	25	--	40*	--	--	--
B3	4.0	--	--	25	--	--	--	--	--	--
B4	4.0	--	--	25	--	--	--	--	--	--
IA	2.0	--	--	25	--	--	--	--	--	--
IB	4.0	--	--	25	--	--	--	--	--	--
IP	2.0	--	--	25	40	20	40	--	50	4
IPHR	3.0	--	--	25	--	--	--	--	200	15

[-- Denotes no dimensional requirement.]

* Rear yard in B2 district may be reduced to ten (10) feet by special permit provided there are no residential abutters to the rear of the property and the property does not abut a residential zoning district to the rear.

** In addition to required landscaped open space section 5.3.1.

† Front setbacks in the M4 & B1 districts should be consistent with existing setbacks on block. Front setbacks in other residential zones may be consistent with existing setbacks on the block, subject to the provisions of section 5.2.6.

5.1.1 Notes to Dimensional Table.

1. A dwelling in any Business or Industrial District shall be subject to the same dimensional and useable open space requirements as a dwelling in a Residential UM2 District, except for height.

2. A dwelling in the B4 District shall be subject to the same dimensional and useable open space requirements as a

dwelling in the M4 District, except for height.

3. In no district shall the lot coverage for a residential dwelling exceed thirty-five (35) percent of the lot area.
4. Minimum width of entry drive right-of-way for access to subdivision or multifamily development shall be thirty-five (35) feet.
5. When an existing building, having been constructed prior to 1945, is converted to residential use within the boundaries of the Artist Overlay District, it is subject to the dimensional requirements of the underlying zone as well as the provisions of Section 9.2.5 but is not subject to the dimensional or open space requirements of the UM-2, M-4, or any other residential zone. [Ord. 07-13-04]

5.1.2 Computation of Lot Area.

1. The lot or yard areas required for any new building or use may not include any part of a lot that is required by any other building or use to comply with any requirements of this chapter, nor may these areas include any property of which the ownership has been transferred subsequent to the effective date of this ordinance if such property was a part of the area required for compliance with the dimensional requirements applicable to the lot from which such transfer was made.
2. Where a dwelling with more than two (2) dwelling units is authorized in a district, the minimum lot area shall apply for the first two (2) dwelling units only. Any additional area specified for such dwelling unit(s), over and above the first two units, shall be added to the minimum lot area requirement.

5.1.3 Lot with Multiple Buildings. In the case of multiple buildings on a lot in single ownership, the distance between such buildings shall comply with the requirements of the State Building Code.

5.1.4 Grandfathered Lots. Lots lawfully laid out shall be governed by the provisions of G.L. c. 40A, s. 6, para. 4.

5.1.5 Lots in the IPHR District. In the IPHR District, a lot may consist of one (1) or more contiguous lots of record. Lots shall be considered contiguous even though the lots or portions thereof are separated from each other by roads, railroads or waterways, so long as any lot or portion of a lot so separated is within three hundred (300) feet of the remaining lot or portion of a lot and so long as said land (lot or lots) is held in common ownership.

5.1.6 Yards. In all Residential Districts at least twenty-five (25) percent of every lot area shall be yard areas. Every part of a required yard shall be open to the sky and unobstructed except for ordinary projections of the belt courses, cornices, sills, skylights and ornamental features projecting from the building not more than twelve (12) inches. Awnings, arbors, fences, flagpoles, recreational and laundry drying equipment and similar objects shall not be considered obstructions when located with a required yard. Open or lattice-enclosed fire escapes for emergency use only are permitted. In measuring a yard for the purpose of determining the width of a side yard, the depth of a rear yard, or the depth of a front yard, the minimum horizontal distance between the corresponding lot line and the building shall be used. The following shall be allowed to be placed within the minimum side and rear yard requirements, but are subject to all applicable front yard requirements:

1. One story accessory buildings up to 120 square feet and 16 feet in height;
2. Above ground pools up to 500 square feet in surface area;
3. One unroofed porch (deck) per dwelling unit, up to 200 square feet in area.

5.1.7 Projections. Projecting eaves, chimneys, bay windows, balconies, open fire escapes and like projections which do not project more than three and one-half (3 ½) feet, and which are part of a building not more than thirty-five (35) feet in height, may extend beyond the minimum yard regulations; provided however, that these elements are not any closer to

property lines or parking areas than ten (10) feet, and the yard areas over which these project are not included in the minimum yard area and open space requirements.

5.1.8 Building Bulk.

1. For any building or group of buildings on a lot the ratio of gross floor area to a lot shall not exceed the maximum specified in the Table of Dimensional Requirements; except, that in a Residential M3 District, the gross floor area of any residence building may be increased, not to exceed a floor area ratio of 3:1 by one (1) square foot of floor area for every one (1) square foot of open, landscaped area supplied on the same lot as the principal use in addition to the required minimum yard area of twenty-five (25) percent as specified in Section 5.1.6. Gross floor area shall be defined as in this chapter.

2. Where a lot in a Residential or Business District abuts on a street or public open space more than one hundred (100) feet wide, one-quarter of the excess over one hundred (100) feet but not more in any case than forty (40) feet may be added to the actual depth of the lot for the distance such lot abuts such street or public open space for calculating the lot area to be used in determining allowable gross floor area based on the maximum floor area specified in the Table.

5.1.9 Reduction of Lot. No lot shall be changed in size or shape so that the height, area, yard or off-street parking and loading requirements herein prescribed are no longer satisfied. This provision shall not apply where a portion of a lot is acquired for a public purpose. This provision shall not apply in regard to lot size, lot width and side yards in the event of sale of an individually owned semidetached or attached dwelling unit.

5.1.10 Lot Width. Each lot shall have a width of not less than eighty (80%) percent of the required frontage at all points between the sideline of the right of way along which the frontage of the lot is measured and the nearest point on the front wall of the structure upon such lot. Such width shall be measured along lines which are parallel to such sideline. This provision may be varied upon the grant of a special permit by the Planning Board.

SECTION 5.2 SPECIAL DIMENSIONAL REGULATIONS

5.2.1 Certain Residential Uses. For residential uses permitted in Residential and Business Districts which are not divided into dwelling units, each one thousand (1,000) square feet of gross floor area of the building shall be considered equivalent to one (1) dwelling unit for purposes of computing minimum lot area.

5.2.2 S1, S2, and TF Districts. No more than one (1) residential dwelling structure shall be built on a lot in an S1, S2, or TF District. [Ord. 07-13-04]

5.2.3 Construction near Wetlands. No new building or structure shall be constructed nor shall any existing building or structure be enlarged within fifty (50) feet of an existing wetland or body of water, except by special permit, and with the express written approval of the Lowell Conservation Commission, following a public hearing. No septic field shall be constructed or an existing septic field enlarged within seventy-five (75) feet of an existing wetland or body of water. No

building permit for construction within one hundred (100) feet of a wetland or within the boundaries of floodplain shall be valid prior to the effective date of a wetlands determination of the applicability and/or the issuance of an order of conditions.

See section 5-120 of the Code of Ordinances of the City of Lowell for the Lowell Wetlands Regulations.

5.2.4 Corner Lots; Lots with More than One Frontage . On a lot abutting streets on more than one (1) side, the front yard requirement of each of the abutting streets shall apply regardless of designated front lot lines. The remaining sides shall be subject to the side yard requirements.

5.2.5 Transition Requirements with Residential Districts.

1. *Front yard.* In a Business or Industrial District, no building shall be erected nearer to the street line or established building line than is permitted in the adjacent Residential District within a distance of fifty (50) feet from the Residential District boundary line, except where such building is separated by a street from the Residential District.

2. *Side yard.* In a Business or Industrial District, no building shall be erected within ten (10) feet of the side lot line of any abutting lot, all of the major portion of which is in a Residential District.

5.2.6 Exceptions to Yard Requirements. The following are special rules regarding the yard requirements set forth in the Table of Dimensional Requirements:

1. In a Residence S1 and S2 District and also in a TF District, a dwelling need not set back more than the average of the setbacks of the buildings, other than accessory buildings, on the lots adjacent thereto on either side, but in no case may any part of the building or accessory building extend nearer to any street line or building line if such has been established. A vacant lot or lot occupied by a building set back more than twenty-five (25) feet in a Residence S1 District and more than twenty (20) feet in a Residence S2 District and also in a TF District, shall be considered as though occupied by a building set back twenty-five (25) feet and twenty (20) feet respectively.

2. In a Residence UM2, SM2 or M3 District, a dwelling need not set back more than the average of the setbacks of the buildings, other than accessory buildings, on the lots adjacent thereto on either side, but in no case may any part of a building or accessory building extend nearer to any street line, or building line if such has been established. A vacant lot or a lot occupied by a building set back more than fifteen (15) feet shall be considered as though occupied by a building set back fifteen (15) feet.

3. In a Residence UM2, SM2 or M3 District, if a building is hereafter erected on a lot adjacent to a building having a blank wall directly on the side lot line, the new building may be so designed and erected that it will be flush with the portion of the blank wall of the former building which extends along the lot line; otherwise, however, not less than the required side yard shall be provided; in any case, the required side yard shall be provided for the remainder of the full lot depth. In case a side wall contains windows or in case any part of a side blank wall or an existing building shall be set back from side lot line, then a building hereafter erected on the lot adjacent to such an existing building shall be set back from the side lot line in accordance with the provisions hereof.

5.2.7 Exceptions to Height Requirements. The provisions of this Section governing the height of buildings and structures in all districts, shall not apply to chimneys, water towers, air conditioning equipment, elevator bulkheads, skylights, ventilators and other necessary features appurtenant to buildings which are usually carried above roofs and are not used for human occupancy, nor to domes, towers or spires above buildings, if such features are not used for human occupancy and occupy less than ten (10) percent of the lot area, nor to wireless or broadcasting towers and other like unenclosed structures which occupy less than ten (10) percent of the lot area.

5.2.8 Corner Clearance. In all districts, between the lines of intersecting streets and the line joining points on such lines fifteen (15) feet distant from their point of intersection no building, structure, or fence may be erected and no vegetation may be maintained above a height of three and one-half feet (3 ') above the plane through their curb grades.

SECTION 5.3 OPEN SPACE

5.3.1 Landscaped Open Space in Residential Districts. Every lot in any Residential District shall include landscaped open space having a total of not less than ten (10%) percent of the gross floor area of all buildings on the lot.

5.3.2 Useable Open Space. Where a minimum useable open space is required in addition to landscaped open space, there shall be included in every lot used in whole or in part for dwelling units intended for family occupancy an area of useable open space provided at the rate specified in the Table of Dimensional Regulations. Where open space is provided to serve more than one (1) family, it shall be deemed useable only if:

1. Each dimension is at least fifteen (15) feet;
2. Such space is at least ten (10) feet from any lot lines.

5.3.3 Special Permit. In the M3 and the UM2 Districts, the Planning Board may reduce the requirements of this Section 5.3 by special permit provided that the Board determines that adequate recreational opportunities exist in the neighborhood.

ARTICLE VI. GENERAL REGULATIONS

SECTION 6.1 OFF-STREET PARKING

6.1.1 Intent of Parking Requirements. It is the intention of this Section that all structures and land uses be provided eventually with sufficient off-street parking space to meet the needs of persons making use of such structures and land uses.

6.1.2 Applicability. No permit shall be issued for the erection of a new structure, the enlargement of an existing structure or the development of a land use, unless the plans show the specific location and size of the off-street parking required by complying with the regulations set forth in this article and the means of access to such space from public streets. In the event of the enlargement of an existing structure, the regulations set forth in this article shall apply to both the existing area added to the existing structure and the existing structure.

6.1.3 Special Regulations.

1. Any use in existence on the effective date of this ordinance is not subject to these parking requirements, but any parking facility thereafter established to serve such use may not in the future be reduced below these requirements.
2. Where a building or lot is used by two (2) or more different classes of use under Section 4.2, the parking facilities required shall be the sum of the requirements for the individual uses, unless by special permit the Board of Appeals authorizes a lesser number of parking spaces.
3. Where the computation of required parking spaces results in a fractional number, only the fraction of one-half or more shall be counted as one (1).
4. Required off-street parking facilities which after development are later designated as and accepted by the city for off-street parking purposes shall be deemed to continue to serve the uses or structures to meet the requirements for which they were originally provided.

6.1.4 Table of Parking Requirements. Off-street parking facilities shall be provided as follows:

Zoning District	Residence (a) Minimum Number Spaces per Group of Dwelling Units	Public Assembly (b) Number Seats Requiring 1 Space	Number Square Feet of Gross Floor Area Requiring 1 Space by Type of Use			
			Institution ©	Retail and Office		Factory and Warehouse
				Ground Floor	Other Level	
S1	2 per 1.0	5	600	--	--	--
S2	2 per 1.0	5	600	--	--	--
TF	2 per 1.0	8	600	--	--	--
SM2	2 per 1.0	10	1000	--	--	--
UM2	2 per 1.0	10	1000	--	--	--
M3 and M4	2 per 1.0	10	1000	--	--	--
B1	2 per 1.0	8	1000	500	1000	--
B2	2 per 1.0	8	1000	150	500	--
B3	1 per 1.0	--	--	--	--	1600
B4	1 per 1.0	8	1000	500	1000	1600
IA	2 per 1.0	10	1000	500	1000	1600
IB	--	15	1000	900	1800	2000
IP	2 per 1.0	10	1000	900	1800	2000
IPHR (d)	2 per 1.0	10	1000	700	1400	1800

[Ord. 07-13-04]

6.1.5 Notes to Parking Table.

1. Where residence uses are not divided into dwelling units, as in the case of hotels, dormitories, lodging houses, etc., each two (2) guest sleeping rooms, each four (4) dormitory beds, or each motel unit shall be considered the equivalent of one (1) dwelling unit.
2. Where no fixed seats are used in a place of assembly, each twenty (20) square feet of public floor area shall equal one (1) seat.
3. Institutions shall include public and nonprofit schools, colleges and all institutional uses listed in Section 4.2. Schools intended primarily for children under sixteen (16) years of age need not provide more than one-half the requirements specified in the table below. Where an institution provides dormitory residence accommodations, the number of parking spaces furnished for the purpose may be deducted from the requirements established for the educational buildings normally used by students in residence.

6.1.6 Location and Layout of Parking Facilities. Unless otherwise allowed herein, required off-street parking facilities shall be provided on the same lot as the principal use they are required to serve, subject to the following exceptions:

1. In the case of new construction of a multifamily residential building in a Business Districts, or the UM2, M3, or M4 Residence Districts, the required parking facilities may be provided on lots not more than four hundred (400) feet away from the building to be served.
2. In IPHR Districts, the required off-street parking may be provided on the same lot as the principal use it is required to serve. However, any other lot or lots within the same IPHR District which is or are not more than one thousand two hundred (1,200) feet away from the entrance of the building to be served, may be used to meet the requirement for off-street parking.
3. In Industry A and B Districts and in the case of institutional uses in any district, the required parking facilities may be provided on lots not more than one thousand (1,000) feet away from the building to be served.
4. In the case of a dormitory of a nonprofit educational institution the required parking facilities may be provided on lots not more than two thousand (2,000) feet away, measured along a traveled way, from the dormitory to be served.
5. Parking required for two (2) or more uses may be provided in a single parking facility on the same or adjacent lots, subject to compliance herewith.

In all cases off-site parking facilities shall be under the same ownership or be leased to the same ownership as the building or buildings which they serve. Where a certificate of occupancy has been issued conditional to the maintenance of off-site parking facilities, such certificate of occupancy shall lapse in the event of the sale or conveyance of the land used for such parking facilities for the required parking, or if said land is otherwise no longer available for such use. Parking spaces satisfying these requirements need not be in the city.

6.1.7 Standards. Required off-street parking facilities may be enclosed in a structure or may be open. If such facilities are open, they shall be graded, surfaced with tar, asphalt, concrete, or other nondusting paving, drained and suitably maintained to the satisfaction of the Building Commissioner to the extent necessary to avoid the nuisances of dust, erosion or excessive water flow onto public ways or adjoining property.

6.1.8 Screening. Any open parking facility for more than three (3) automobiles shall be screened from abutting residence, church or public property in a manner which will provide an effective visual screen. Said screen shall be at least five (5) feet in width and shall contain plantings not less than three (3) feet in width nor less than six (6) feet in height. At least fifty (50) percent of the plantings shall be evergreen. Plantings shall form a solid screen within three (3)

years of installation. A solid fence or wall six (6) feet high may be substituted for all or a portion of the planted screen, by special permit only.

6.1.9 Landscaped Open Space. Where a parking area or single lot contains ten (10) or more off-street parking spaces, there shall be landscaped open space within the perimeter of the parking area or areas in the minimum amount of five (5) percent of the gross parking area. All such landscaped areas shall be computed in addition to the parking space requirements herein. All such landscaped areas shall contain no less than one (1) live shade or ornamental tree for every two thousand (2,000) square feet of parking area. Such trees shall have a minimum trunk diameter of two (2) inches (measured twelve (12) inches above the ground level) and shall not be planted more than fifty (50) feet apart in each contiguous landscaped area.

6.1.10 Table of Dimensional Requirements for Off-Street Parking.

District	Min. Parking Space Width† (ft.)	Min. Parking Space Length (ft.)	Min Driveway or Drive Lane Width‡ (ft.)	Maximum Curb Cut or Drive Lane Width	Min. Parking Lot Area* (SF/space)	Min. Setback from Property Line or Street Line (ft.)	Min. Setback from Building†‡ (ft.)
S1	8	18	8	15	--	3	3
S2	8	18	8	15	--	3	3
TF	8	18	8	15	--	3	3
SM-2	9	18	8	25	250	3	3
UM-2	9	18	8	25	250	3	3
M3	9	18	8	25	250	3	3
M4	9	18	8	25	250	3	3
B1	9	18	12 (one-way) 20 (two-way)	25	275	5	10
B2	9	18	12 (one-way) 20 (two-way)	25	275	5	10
B3	9	18	12 (one-way) 20 (two-way)	25	275	5	5
B4	9	18	12 (one-way) 20 (two-way)	25	275	3	5
IA	8.5	18	12 (one-way) 20 (two-way)	32	250	5	10
IB	9.5	20	12 (one-way) 20 (two-way)	32	300	5	10
IP	9.5	20	12 (one-way) 20 (two-way)	32	300	5	10
IPHR	8.5	18	12 (one-way) 20 (two-way)	32	250	5	10
PD-MI	9.5	20	12 (one-way) 20 (two-way)	32	300	5	10
PD-MU	9.5	20	12 (one-way) 20 (two-way)	32	300	5	10

-- Denotes no dimensional requirement.

* Applies only to parking facilities containing five (5) or more spaces.

† This requirement applies to those portions of building walls containing windows or other openings off of habitable or occupiable rooms or spaces at the basement, ground floor, or first story levels. This requirement does not apply to residential garages, carports, or other structures designed and constructed for the primary purpose of housing automobiles on residential properties. This requirement governs open-air parking spaces and driveways or driveways.

‡ In all zones, parking spaces and driveways serving single-family, two-family, and three-family residences may be as narrow as 8'-0" wide and may be setback as little as 3'-0" from a building as defined above.

A TYPICAL PARKING LOT

6.1.11 Notes to Table of Dimensional Requirements for Off-Street Parking.

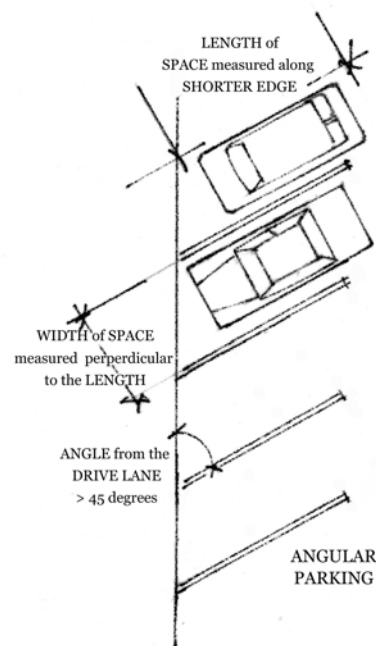

1. Lots used solely for off-street parking in Residential Districts must conform to the above requirements but do not need to meet all dimensional requirements for a building lot as set forth in Section 5.0 of this ordinance. A special permit must be obtained from the Zoning Board of Appeals for any parking lot in a Residential District whose frontage exceeds the minimum frontage required for a building lot in the zone where the lot is located.

2. The Board of Appeals may grant a special permit modifying the requirements listed in this table in cases of a mechanical garage or in case the Board is satisfied that the parking facility will be used by cars of less than standard size, provided the total number of spaces conforms to Section 6.1.4.

3. Some or all of a project's off street parking requirements may be met using parallel parking spaces in all zones. Parallel parking spaces must be at least 8' wide and 22' long. For each parallel parking space, the adjacent drive lane must be at least 10' wide and at least 20' of clear maneuvering area must be provided in front of the space in the drive lane adjacent to the space.

4. Angle parking spaces may be used to satisfy some or all of a project's off-street parking requirements. Angle parking spaces must conform to the dimensions outlined in the Table for the zone where they are located. The length of an angle parking space is measured along the shorter side and the width is measured perpendicular to the angle of the space. The angle of a parking space must be between 45° and 90° from the drive lane providing access to that space, unless it is a parallel parking space.

5. Off-street parking requirements for single-family residential buildings may be satisfied by stacking spaces behind one another in a driveway. Off-street parking requirements for residential buildings may be satisfied by locating one surface parking space in front of a garage serving the same dwelling unit. In no other circumstance may all or part of the minimum parking requirements be satisfied in such a manner as to require moving a car parked in any one space to enable a car parking in any other space to enter or exit that space. When a common driveway is shared by two or more property owners, no parking requirements may be satisfied in such a manner as to require moving a car owned or used by the owner or occupant of one property to enable a car owned or used by the owner or occupant of another property to enter or exit the parking area.

6.1.12 Prohibition. Parking areas shall not be used for automobile sales, gasoline sales, dead storage, repair work, dismantling or servicing of any kind, and any lighting that is provided shall be installed in a manner that will prevent direct light from shining onto any street or adjacent property.

SECTION 6.2 LOADING REQUIREMENTS

6.2.1 Intent of Loading Requirements. It is the intention of this Section 6.2 that all buildings and uses requiring the delivery of goods as part of their function be provided eventually with necessary space for off-street loading.

6.2.2 Applicability. No application for a permit for the erection of a new building, the substantial alteration of an existing building or the development of a land use shall be approved, unless it includes a plan for off-street loading facilities required to comply with the regulations set forth in this article.

6.2.3 Special Regulations.

1. Where a building existing on the effective date of this ordinance is altered or extended in such a way as to increase the gross floor area by five thousand (5,000) square feet or more, only the additional gross floor area shall be counted in computing the off-street loading requirements.
2. Where a building or land area is used by two (2) or more activities that fall into different classes of use under Section 4.2, the facilities required shall be the sum of the requirements for the individual establishments.
3. Where the computation of required loading bays results in a fractional number, only the fraction of one-half or more shall be counted as one (1).

6.2.4 Table of Loading Requirements. Off-street loading facilities shall be provided for the following specified uses:

	<i>Number of Bays Required for New Structure By Gross Floor Area of Structure (in thousands of square feet)</i>					
	<i>Under 5</i>	<i>5--50</i>	<i>51--100</i>	<i>101--150</i>	<i>151--300</i>	<i>Over 300 (for each additional 150)</i>

Public utility						
Consumer services						
Office building						
Hotel, motel, dormitory	0	1	1	2	3	1
Recreation						
Research laboratory						
Institution	0	0	1	1	2	1

6.2.5 Special Requirements.

1. The following requirements shall apply to an IPHR. District:

Manufacturing or warehousing: Buildings used for manufacturing or warehousing shall have one (1) bay for each one hundred fifty thousand (150,000) square feet or portion thereof.

Office: One (1) bay shall be required for buildings containing from five (5) to one hundred fifty thousand (150,000) square feet of gross floor area. Two (2) bays shall be required for buildings containing up to six hundred thousand (600,000) square feet.

6.2.6 Location and Layout of Loading Facilities.

1. Each required loading bay shall be no less than ten (10) feet in width, thirty-five (35) feet in length and twelve (12) feet in height, such requirements to be exclusive of drives and maneuvering space, and all required bays, drives and maneuvering space shall be located entirely on the lot with immediate and direct ingress to the building intended to be served. A bay need not be enclosed in a structure provided bay yard used as a loading bay shall not infringe on front, side and rear yard requirements in this chapter. All such facilities shall be designed with appropriate means of vehicular access to a street or alley as well as maneuvering area, and no driveways or curb cuts shall exceed twenty-five (25) feet in width except in Industrial Districts.
2. Required off-street loading bays may be enclosed in a structure and must be so enclosed if located within fifty (50) feet of a Residential District where the use involves regular night operation, such as that of a bakery, restaurant, hotel, bottling plant or similar uses. Any lighting provided shall be installed in a manner that will prevent direct light from shining onto any street or adjacent property.
3. All accessory driveways and entranceways shall be graded, surfaced, drained and suitably maintained to the satisfaction of the Building Commissioner to the extent necessary to avoid nuisances of dust, erosion or excessive water flow across public ways.
4. Loading facilities shall not be reduced in total extent or usability after their installation, except when such reduction is in conformity with the requirements of this article. Such facilities shall be designed and used in such a manner as at no time to constitute a nuisance or unreasonable impediment to traffic.

SECTION 6.3 SIGNS

6.3.1 Applicability. No signs or advertising devices of any kind or nature shall be erected on any premises or affixed to the outside of any structure, except as specifically permitted in this Section.

6.3.2 Permitted Sign Types. The following types of signs are permitted as set forth in Section 6.3.4, the Table of Sign Regulations.

1. *Address Sign:* One (1) sign displaying the street number or name of the occupant of the premises or both.
 - A. Such sign may include identification of an accessory professional office or customary home occupation (as defined herein).
 - B. Such sign may be attached to the building or may be on a rod or post not more than four (4) feet high, and at least three (3) feet in from street line.
 - C. Such sign may not exceed two (2) square feet in area.
 - D. Sign must be stationary and not contain any motorized moving parts.

2. *Awning Sign*: A sign painted on or attached to a moveable metallic frame, of the hinged roll or folding type, which may have a covering either combustible or incombustible [noncombustible].

A. Such sign must be painted on or attached flat against the surface of, but not extending beyond or attached to the underside.

B. Letters shall not exceed ten (10) inches in height.

C. A minimum clearance above sidewalk level of seven (7) feet must be allowed for pedestrian clearance.

3. *Billboard*: An off-premises sign controlled by the outdoor advertising board, which is used for the display of printed or painted advertising matter. No off-premises billboard, sign or advertising device shall be erected or maintained unless the height, setback and illumination requirements set forth herein are met and unless a permit therefore has been granted by the outdoor advertising authority in accordance with G.L. c. 93, ss. 29 through 33, as from time to time amended, and such permit is valid and outstanding.

4. *Community Directory Sign*: An accessory bulletin or announcement board describing the location of event of a community service organization, institution, or public facility.

A. Such sign shall not exceed twenty (20) square feet in total area.

B. One (1) such sign for each property is allowed, unless the street frontage of said institution exceeds one hundred (100) feet, then one (1) sign for each hundred (100) feet is allowed but in no event more than three (3) such signs.

C. No such sign may be located nearer to a street line than one-half of the depth of the required front yard.

5. *Contractor Sign*: An off-premises sign identifying the contractor's name, address and other pertinent information.

A. Such sign may not exceed twenty (20) square feet.

B. Such sign may be maintained on the building or structure only for the interim of construction and not exceeding fifteen (15) days following the completion of said construction.

C. Failure to remove said sign within time period stated shall be removed by the Building Commissioner at the expense of the owner.

6. *Election Signs*: A sign designed to influence the action of voters for (I) the passage or defeat of a measure; or (ii) the election of a candidate for nomination or election to public office at a national, state or other local election. An election sign is permitted if it is stationary, unlighted, temporary, and is not attached to a utility pole, fence, tree or other vegetation, or upon a public right-of-way or attached to any structure (except that such sign may be displayed in a window).

7. *"For Sale" or "For Rent" Signs*: An on-premises sign advertising the property being sold or rented.

A. Such signs shall not exceed six (6) square feet.

B. Such signs shall advertise only the property on which the sign is located.

C. A maximum of two (2) such signs may be maintained on the property being sold or rented.

8. *Freestanding Sign*: A self supporting sign in a fixed location and not attached to any building or structure.

A. Such sign shall have no more than two (2) faces.

B. The area of each face shall not exceed thirty (30) square feet unless there are three (3) or more uses on the lot, then the area of each face shall not exceed fifty (50) square feet.

C. The top of such sign may not exceed a height of twenty (20) feet above grade.

D. A lot with a frontage of three hundred (300) feet or more may have two (2) such signs.

E. Such signs shall be erected so as to not obstruct free [ingress or] egress to or from any building or public right-of-way.

F. Such signs shall be constructed entirely of noncombustible materials.

G. There must be no exposed connecting wires.

9. *Illuminated Sign*: A sign that is artificially illuminated by means of electricity, gas, oil, or fluorescent paint.

A. Permits must be obtained for the erection of illuminated signs within the limitations set forth in this article for the location, size and type of sign or outdoor display.

B. All electrically-illuminated signs shall conform to the requirements of the Massachusetts State Electrical Code.

C. All illumination must be a continuous external light, that is indirect and installed in a manner which will prevent direct light from shining onto any street or adjacent property. (Spot, track, overhang, or wall lamps are acceptable).

D. Internally-illuminated signs will require a special permit by the special permit granting authority.

E. No form of illumination that is flashing, moving, animated or intermittent shall be allowed.

F. There must be no exposed connecting wires.

10. *Individual Letters or Symbols*: Which are attached to an awning, marquee, a roof, building surface, wall, or signboard.

A. The area to be computed is that of the smallest rectangle or other geometric shape which encompasses all of the letters or symbols.

B. These letters or symbols shall not project more than twelve (12) inches from the building surface.

C. Letters and symbols shall not obscure architectural features of the building (including but not limited to cornices, lintels, transoms) to which the letters and symbols are attached.

D. Such letters and symbols shall not extend above the lowest part of the roof, nor beyond the ends of the wall to which they are attached.

E. Sign size: Letters or symbols shall have an aggregate area not exceeding two (2) square feet for each foot of building face parallel or substantially parallel to a street lot line. Where a lot fronts on more than one (1) street, the aggregate sign area facing each street frontage shall be calculated separately. Signs shall not be permitted on building walls not parallel or within forty-five (45) degrees of parallel to the street, except directional signs such as for entrances or parking each not exceeding three (3) square feet in area.

11. *Marquee Signs:* A sign painted on, attached to, or consisting of an interchangeable copy reader, on a permanent overhanging shelter which projects from the face of a building.

A. Such sign may be painted on or attached flat against the surface of, but not extending beyond or attached to the underside.

B. Letters or symbols shall not exceed sixteen (16) inches in height.

C. A minimum clearance above sidewalk level of ten (10) feet must be allowed for pedestrian clearance.

12. *Moving Signs:* Signs that change or rearrange characters, letters, or illustrations, including time or temperature indicators and gasoline pricing signs with changeable characters, except as specifically prohibited herein. [Ord. 07-13-04]

13. *Painted Signs:* A permanent mural or message painted directly onto a building surface or the surface of a wall or retaining wall not part of any building. A special permit is required from the special permit granting authority.

14. *Projecting Signs:* A permanent sign that is hung at a ninety-degree angle from the face of and affixed to a building or structure and extends twelve (12) inches or beyond the building wall, structure of parts thereof.

A. If flat, each face shall not exceed sixteen (16) square feet.

B. The total area of a three-dimensional sign shall be determined by enclosing the largest cross-section of the sign in an easily recognizable geometric shape (rectangle, triangle, parallelogram, circle, etc.) and computing its area which shall not exceed nine (9) square feet.

C. Such sign must be hung at right angles, and shall not project beyond a vertical plane of two (2) feet inside the curbline.

D. The bottom of said sign shall allow a ten-foot pedestrian clearance from sidewalk level.

E. The top of the sign may be suspended in line with one (1) of the following, whichever is the most successful application of scale, linear continuity and visibility as determined by the Building Commissioner: suspended between the bottom of sills of the first level of windows above the first story and the top of the doors or windows of the first story; or the lowest point of the roof of a one-story building.

F. An additional permit is required from the city council to erect signs which overhang a public way.

G. All signs overhanging a public way must be covered by an insurance policy naming the City of Lowell as coinsured and for such amounts as shall be established by the city.

15. *Public Service Sign:* A sign located for the purpose of providing directions towards or indication of a use not readily visible from a public street (e.g., restrooms, telephone, etc.).

- A. Such signs that are necessary for public safety and convenience shall not exceed four (4) square feet.
- B. Such signs may bear no advertising.
- C. Such signs are not included in computing total sign area allowed.

16. *Roof Sign:* A sign erected, constructed, or maintained above the roof of a building. Roof signs are prohibited except by special permit by the special permit granting authority.

- A. Permit may be granted if it is the only feasible for of signing for that establishment.
- B. Such signs shall be constructed entirely of or other approved noncombustible materials except as provided in Section 1408.5 of the State Building Code.
- C. All wiring and tubing shall be kept free and insulated therefrom.
- D. Such signs shall be set back at least three (3) feet from the face of the outside wall.

17. *Temporary Sign:* A sign intended to be used for a period of no more than thirty (30) days. Temporary signs pertaining to special sales or events may be displayed in no more than thirty (30) percent of the window area.

- A. No permit is required for temporary signs.
- B. Temporary banner signs which overhang a public way must be covered by an insurance policy naming the City of Lowell as coinsured and for such amounts as shall be established by the city.

18. *Wall sign:* A sign which is attached parallel on the exterior surface of a building or structure.

- A. A wall sign shall not project more than fifteen (15) inches from the building surface.
- B. The sign shall not obscure architectural features of the building (including but not limited to cornices, lintels, transoms) to which the sign is attached.
- C. Such signs shall not exceed above the lowest point of the roof, nor beyond the ends of the all to which it is attached.
- D. Sign Size: Signs or advertising devices, attached to the building shall have an aggregate area not exceeding two (2) square feet for each lineal foot of the building face parallel or substantially parallel to a street lot line. Where a lot fronts on more than one (1) street, the aggregate sign area facing each street frontage shall be calculated separately. Signs shall not be permitted on building walls not parallel or within forty-five (45) degrees of parallel to the street, except for entrances or parking each not exceeding three (3) square feet in area.

19. *Window Sign:* A permanent nonilluminated sign painted on the inside glass of a window.

- A. The total area of a window sign shall not exceed thirty (30) percent of the total glass area.
- B. Contents of such sign shall advertise only an on-premise use.

C. Window signs on ground floor levels shall be included in calculating the total area of signs on the building frontage.

6.3.3 Special Requirements.

1. Corner buildings. If a building fronts two (2) or more streets, the sign area for each street frontage shall be computed separately.
2. Setback requirements. Unless otherwise specified in this Ordinance, signs are exempt from setback requirements.
3. Sublevel storefront. If the first floor of a building is substantially above street grade and the basement is only partially below street grade, separate occupants of each level may each have one-half the square feet of signage allowed if it were a single ground floor use.
4. Supports and brackets for a sign shall not extend needlessly above the cornice line of the building to which the sign is attached.
5. Trademarks that are registered for a specific commodity may occupy no more than ten (10) percent of the sign area, except that said commodity is the major business conducted on the premises, then there shall be no such restriction.

6.3.5 Prohibited Signs. No person may erect the following signs:

1. A sign which flashes, rotates, or has a motorized moving part that is visible from a public street.
2. Any sign which, by reason of its size, location, content, coloring or manner of illumination, constitutes a traffic hazard or a detriment to traffic safety in the opinion of the Building Commissioner by obstructing the vision of drivers, or detracting from the visibility of any traffic sign or control device on public streets and roads.
3. Any sign which obstructs free ingress to or egress from a required door, window, fire escape or other required exitway of [or] which obstructs a window, door or other opening for providing light or air or interferes with property [proper] function of the building.

4. Any sign or sign structure which is structurally unsafe; or constitutes a hazard to safety or health by reason of inadequate maintenance, dilapidation or abandonment; or is not kept in good repair; or is capable of causing electrical shocks to persons likely to come in contact with it.
5. Signs which make use of words such as STOP, LOOK, DANGER, etc., or any phrases, symbols, or characters, in such a manner as to interfere with, mislead, or confuse traffic.
6. String lights used in connection with commercial premises for commercial purposes other than Christmas decorations.
7. Spinners, and streamers except as specified in temporary sign section.
8. Any sign now or hereafter existing which no longer advertises a bonafide business conducted or product sold. Such signs shall be removed at owner's expense.
9. Any sign affixed to a fence, utility pole or structure, or tree, shrub, rock or other natural objects.

6.3.6 Variance. An application for variance may be filed with the board of appeals as allowed in Section 11.2 of this ordinance.

6.3.7 Special Permit. Certain signs require a special permit, as set forth in Section 6.3.4. The special permit granting authority shall be the Board of Appeals. Prior to the grant of any special permit, the Division of Planning and Development may provide a written recommendation to the Board. Where the locus is within an historic district subject to the approval of the Historic Board, said approval shall constitute a special permit hereunder and no further special permit shall be required.

6.3.8 Maintenance. Each sign shall be maintained in a secure and safe condition. If the Building Commissioner is of the opinion that a sign is not secure, safe or in good state of repair, it shall give written notice of this fact to the person responsible for the maintenance of the sign. If the defect in the sign is not corrected within the time permitted by the Building Commissioner, the Building Commissioner may revoke the permit to maintain the sign and may remove the sign and keep possession of same until the owner pays the cost of removal.

6.3.9 Energy Shortage. In the event of an energy shortage, the city is authorized in its discretion to order all signs in city consuming electricity, gas, oil or other energy, to cease consumption in whole or in part during such hours as for such period as designated.

6.3.10 Nonconforming Signs. Any sign or other advertising (billboard) devices heretofore legally erected may continue to be maintained; provided, however, that no such sign or other advertising device shall be permitted if it is enlarged and provided further, any such sign or other advertising device which has deteriorated to such an extent that the cost of restoration would exceed thirty-five (35) percent of the replacement cost of the sign or other advertising device at the time of the restoration shall not be repaired or rebuilt or altered. Any exemption provided in this section shall terminate with respect to any sign or other advertising device which:

1. Shall have been abandoned as set forth in this Ordinance.
2. Shall not have been repaired or properly maintained within thirty (30) days after notice to that effect has been given by the building commissioner.

SECTION 6.4 ILLUMINATION

In a Residential District no outdoor floodlighting or decorative lighting, except lighting primarily designed to illuminate walks, driveways, doorways, outdoor living areas or outdoor recreational facilities, and except temporary lighting in use for no longer than a four-week period in any calendar year, shall be permitted. Any permanent lighting permitted by the preceding sentence shall be continuous, indirect and installed in a manner that will prevent direct light from shining onto any street or adjacent property or the night sky.

SECTION 6.5 LANDSCAPING

Where a lot located in a Nonresidential District is situated on the boundary of a Residential District, the lot line(s) with the Residential District(s) shall be screened from nonresidential uses by means of plantings or maintenance of trees of a species common to the area and appropriate for screening, spaced to minimize visual intrusion, and providing an opaque year-round visual buffer between uses. Such plantings shall be provided and maintained by the owner of the property used for nonresidential purposes. No part of any building or structure or paved space intended for or used a parking area may be located within the buffer area. Planted buffer areas along property lines with Residential Districts or uses shall be at least ten feet in depth. Deciduous trees shall be at least two (2") inches in caliper as measured six (6") inches above the root ball at time of planting. Deciduous trees shall be expected to reach a height of 20 feet within ten years after planting. Evergreens shall be a minimum of eight (8') feet in height at the time of planting.

SECTION 6.6 REFUSE CONTAINERS

All refuse containers subject to the provisions of section 10-74 of the Code of Ordinances of the City of Lowell must comply with all applicable provisions. All refuse containers for uses other than single family homes shall also meet the following conditions, which may only be waived with a special permit granted by the Planning Board:

1. Refuse containers should not be visible from the street.
2. Refuse containers shall be set back from the front property line at least as far as the primary structure on the property. No refuse container shall be located in the front yard.
3. Refuse containers shall be enclosed or screened by a structure constructed out of the same or similar materials to the primary structure on the property. The enclosure shall screen the containers from view from the public way and protect the containers from raccoons, rodents, and other pests.
4. Outdoor refuse containers shall not be stored within ten feet of exterior windows or doors that open directly onto habitable space within housing units on the basement, ground, or first floors of buildings containing housing.

SECTION 6.7 DRIVEWAY REGULATIONS

6.7.1 General. For the purpose of promoting the safety of the residents of the City, an application for a building permit for a residential structure shall include a plan, at a scale of 1" = 100 ft., showing the driveway serving the premises, and showing existing and proposed topography at two (2) ft. contour intervals. All driveways shall be constructed in a manner ensuring reasonable and safe access from the public way serving the premises to within a distance of 100 feet or less from the building site of the residential structure on the premises, for all vehicles, including, but not limited to, emergency, fire, and police vehicles. The Building Commissioner shall not issue a building permit for the principal structure on the premises unless all of the following conditions have been met.

6.7.2 Maximum Distance. The distance of any driveway measured from the street line to the point where the principal building is proposed shall not exceed a distance of two hundred (200) feet, unless the Planning Board grants a special permit after a determination that said driveway will provide safe and reasonable access for fire, police and emergency vehicles.

6.7.3 Grade. The grade of each driveway where it intersects with the public way shall not exceed six percent (6%) for a distance of 30 feet from the travel surface of the public way unless the Planning Board shall grant a special permit after a determination that said driveway will provide safe and reasonable access for fire, police and emergency vehicles.

6.7.4 Access. Driveways serving the premises shall provide access through the required frontage of the serviced lot.

ARTICLE VII. SPECIAL REGULATIONS

SECTION 7.1 STATEMENT OF PURPOSE.

In the development and execution of this Section, it is recognized that there are some uses which, because of their very nature, are recognized as having serious objectionable operational characteristics, particularly when several of them are concentrated under certain circumstances thereby having a deleterious effect upon the adjacent areas. Special regulation of these uses is necessary to insure that these adverse effects will not contribute to the blighting or downgrading of the surrounding neighborhood. These special regulations are itemized within this Section. The primary control or regulation is for the purpose of preventing a concentration of these uses in any one area (i.e., not more than 2 such uses within 500 feet of each other which would create such adverse effects).

SECTION 7.2 ADULT ENTERTAINMENT ESTABLISHMENTS

7.2.1 Conditions. No adult entertainment establishment shall be within:

1. seven hundred fifty (750) feet of another presently existing or permitted Adult Entertainment Establishment [Ord. 07-13-04]; or
2. five hundred (500) feet of the following zoning districts: S-1, S-2, TF, SM-2, UM-2, M-3, M-4; or
3. five hundred (500) feet of a public or private elementary school, middle school, secondary school, or any school or college serving a student population where any of the student population is under eighteen years of age.

SECTION 7.3 BODY ART ESTABLISHMENTS

7.3.1 Conditions. No Body Art Establishment shall be within:

1. seven hundred fifty (750) feet of another presently existing or permitted Body Art Establishment; or
2. five hundred (500) feet of the following zoning districts: S-1, S-2, TF, SM-2, UM-2, M-3, M-4; or
3. five hundred (500) feet of a public or private elementary school, middle school, secondary school, or any school or college serving a student population where any of the student population is under eighteen years of age.

SECTION 7.4 MASSAGE THERAPY ESTABLISHMENTS

7.4.1 Required Affiliation. Massage therapy establishments, not otherwise exempt, must be affiliated with and be physically located at the same site as the following, and only the following, listed salon and professions:

1. Salons for hair, nails, or tanning;
2. Licensed professions engaging in the practice of medicine, chiropractic, osteopathy, or physical therapy;
3. Health and fitness clubs.

SECTION 7.5 REMOVAL OF MATERIAL

7.5.1 General. No person shall remove any soil, loam, sand or gravel from any land not in public use in any part of the city, without first obtaining written permission therefore from the Board of Appeals after a public hearing, except as provided herein

7.5.2 Criteria. Before granting any such permit, the Board of appeals shall give due consideration to:

1. The location of the place from which it is proposed to remove soil, loam, sand or gravel;
2. The general character of the neighborhood surrounding such location;
3. The effect of the proposed removal in such neighborhoods; for example, the amount of noise, dust and vibration likely to result from the proposed removal; the extent, depth and contour of the location and surrounding neighborhood from which such removal is proposed; the general safety of the public on the public ways giving access to and in the immediate vicinity of such location; and the use of which such location has been put prior to the application for a permit, and to which it may be put after the expiration of the permit.

7.5.3 Conditions. As a part of and as set forth in any such permit, the board of appeals may impose such reasonable restrictions and conditions on the exercise of the permit as it deems to be in the public interest including but not limited to the following:

1. The duration of time from which the permit may be exercised;
2. The extent, depth and contour of the area of removal;
3. The grade of the slope of the banks of the area of removal and the specification of showing and reinforcement of the banks of any excavation;
4. The proximity of such removal to any public way;
5. The hours of the day during which such removal may be permitted;
6. The hours of the day during which the material may be trucked away from the location of removal;
7. The conditions under which the removal trucks may be operated;
8. The replacement of topsoil and the replanting of the area of removal and screening the same from public view.

7.5.4 Time Limit. No permit for removal of material granted by the board of appeals shall be valid for a period in excess of six (6) months from its date of issue.

7.5.5 Exemption. This section shall not apply to the removal of soil, loam, sand or gravel incidental to and reasonably required in connection with the construction of the premises of any buildings or roads for which a permit has been issued by the Building Commissioner.

SECTION 7.6 TELECOMMUNICATIONS FACILITIES

7.6.1 Purpose. This Section is enacted in order to establish general regulations for the siting of telecommunications facilities and to enhance and fulfill the following goals:

1. Preserve the authority of the City of Lowell to regulate and to provide for reasonable opportunity for the siting of telecommunications facilities.

2. Reduce adverse impacts such facilities may create, including, but not limited to impacts on aesthetics, environmentally sensitive areas, historically significant locations, flight corridors, health and safety by injurious accidents to personal property, and prosperity through reasonable protection of property values.
3. Provide for co-location and minimal impact siting options through an assessment of technology, current location options, future available locations, innovative siting techniques, and siting possibilities beyond the political jurisdiction of the City of Lowell.
4. Permit the construction of new telecommunications facilities only when all other reasonable opportunities have been exhausted, and encourage the configuration of new facilities to minimize the adverse visual impact.
5. Require co-location of antennas, to the highest extent possible, in order to reduce the cumulative negative impacts upon the City of Lowell.
6. Provide for the removal of abandoned telecommunications facilities.
7. Preserve the authority of the Building Department of the City of Lowell to conduct an inventory of existing telecommunications facilities as necessary.

7.6.2 Applicability. Telecommunications facilities shall not be considered infrastructure, public services, or utilities, as defined or used elsewhere in the City's Ordinances and Regulations. Siting for telecommunication facilities is a use of land, and is regulated by this Section 7.6 and the Schedule of Principal Uses.

1. This Section shall not govern the siting or construction of any tower, or the installation of any antenna that is under 70 feet in height and is owned and operated by a federally-licensed amateur radio station operator or is used exclusively for receive only antennas.

7.6.3 Special Permit Procedures. Telecommunications facilities shall require a special permit from the Zoning Board of Appeals. In addition, site plan approval is required for the construction of all freestanding telecommunications towers. The special permit and site plan applications must be in accordance with the following regulations as set forth by the FCC:

1. The local regulations shall not unreasonably discriminate among providers of functionally equivalent service.
2. The local regulations shall not prohibit or have the effect of prohibiting the provision of personal wireless services. This also prohibits moratoriums on accepting applications, or at least a moratorium that is of indefinite length.
3. Requests for such facilities must be acted upon within a reasonable period of time. The time taken to act on an application will be considered reasonable as long as it is no longer than the time the local government usually takes to act on the other requests of comparable magnitude that have nothing to do with telecommunications facilities.
4. Any decision to deny a request for such a facility must be in writing and supported by substantial evidence in a written record.
5. The local regulations cannot adopt regulations based on the environmental effects of radio frequency emissions where the facilities comply with FCC emissions regulations.

7.6.4 Additional Criteria. In addition to the criteria for consideration specified herein, the standards and requirements of this Section shall be considered by the Zoning Board of Appeals and Planning Board.

7.6.5 Submittal Requirements. In addition to the application materials required under Section 11.3.5, the applicant for a telecommunications facility shall provide the following with a special permit application:

1. Scaled elevation perspective of the proposed telecommunications tower and associated structures.
2. Radio frequency coverage for the proposed antenna and for existing antenna that provide coverage to the City of Lowell and vicinity and which are operated by the applicant.
3. Engineering information detailing the minimum and optimal height and coverage required for the facility.
4. For new telecommunications towers, information prepared by a qualified and licensed professional engineer documenting the capacity of the telecommunications tower, which shall include the maximum number of antennas it can support.
5. An inventory of existing telecommunications towers and tall structures that are within five miles of the proposed tower location, including specific information about the location, height, and design of each telecommunications tower or structure, as well as the economic and telecommunications towers or structures.
6. Written evidence demonstrating that none of the existing structures or telecommunications towers inventoried can accommodate the applicant's proposed antenna. This shall consist of:
 - A. Substantial evidence that the installation of the proposed antenna and associated equipment would exceed the structural capacity of the existing structures or telecommunications towers inventoried, as documented by a qualified and licensed professional engineer, and that the structure or telecommunications tower cannot, at a reasonable cost, be reinforced, modified, or replaced to accommodate the antenna and equipment.
 - B. Substantial evidence as approved by the Planning Board and documented by a qualified and licensed professional engineer, that the proposed antenna on the inventoried structures or telecommunications towers, or that the antenna already on an existing structure would cause interference with the applicant's proposed antenna.
 - C. Substantial evidence, as approved by the Planning Board, that the existing structures or telecommunications towers inventoried are not of sufficient height to meet the applicant's engineering requirements and that the structure or telecommunications towers cannot, at a reasonable cost, be extended or replaced to meet the required height.
 - D. Substantial evidence, as approved by the Planning Board, that the fees, costs, or contractual provisions required by the owner in order to share existing inventoried structures or telecommunications towers are unreasonable. One time costs exceeding the costs of a new telecommunications tower development are presumed to be unreasonable.
 - E. Substantial evidence, as approved by the Planning Board, that the applicant can demonstrate other limiting factors that render existing structures or telecommunications towers unsuitable.
7. For new telecommunications towers, a written commitment from the applicant that allows for the maximum allowance of co-location on the telecommunications tower. This commitment shall become a Condition of Approval. This commitment shall, at a minimum, require the applicant to supply available co-location for reasonable fees and costs to other telecommunications providers. Failure to provide such a commitment is

evidence of the applicant's unwillingness to cooperate with the orderly and well-planned development of the City of Lowell, and grounds for denial.

8. A visual impact analysis prepared by a qualified professional that includes photosimulations of the proposed telecommunications facility that at a minimum simulate the views of the facility from habitable structures on abutting properties and from the closest public roads.

9. A surety estimate equal to 115% for the cost of the removal of the telecommunications facility. The surety can be in the form of a passbook account or a letter of credit.

10. For new telecommunications towers, proof that the proposed tower complies with regulations administered by the Federal Aviation Administration (FAA).

7.6.6 Design and Performance Standards.

1. *Telecommunications Tower Color:* Telecommunications towers shall either maintain a galvanized steel finish, subject to any applicable standards of the Federal Aviation Administration (FAA), or to be painted a neutral color as approved by the Planning Board, so as to reduce visual obtrusiveness.

2. *Design of Accessory Structures:* The design of accessory structures shall, to the maximum extent possible, use materials, colors, textures, screening, and landscaping that will blend the telecommunications facility with the natural setting and built environment. All accessory structures shall also be subject to all other Site Plan Review Regulation requirements.

3. *Telecommunications Tower Lighting:* Telecommunications towers shall not be artificially lit, unless required by the Federal Aviation Administration (FAA) or other applicable authority. If lighting is required, the Planning Board shall review the available lighting alternatives and approve the design that would cause the least disturbance to the surrounding views.

4. *Signs:* Telecommunications towers shall not contain any permanent or temporary signs as defined in this ordinance, writing, symbols, or any graphic representation of any kind, with the exception of safety warning signs or equipment information signs. All signs must be kept to a minimum as approved by the Planning Board.

5. *Telecommunication Facility Setbacks:* The following requirements shall supersede any less stringent standards found elsewhere in City Ordinances and Regulations:

A. Telecommunications towers shall have a minimum front, side, and rear yard setback equal to the height of the tower.

B. Telecommunications tower guys and accessory structures shall satisfy the minimum setback requirements of the underlying Zoning District.

6. *Security Fencing:* The perimeter of telecommunication facilities shall be enclosed by security fencing not less than six feet in height and shall also be equipped with appropriate anti-climbing controls, such as barb wire.

7. *Landscaping:* A minimum of 10% of the site must be landscaped with vegetation meeting the requirements listed in the Appendix of the Lowell Subdivision Ordinance. The proposed landscaping must adequately screen the site as approved by the Planning Board.

8. *Height:* The height of each tower shall be reviewed and approved by the Zoning Board of Appeals. The maximum height of a telecommunications tower shall be 199 feet. This standard shall supersede any more stringent standards found elsewhere in the City Ordinances or Regulations.

7.6.7 Co-Location.

1. *Design for Co-Location:* All telecommunications towers shall be designed structurally, electrically, and in all other respects to accommodate both the applicant's antennas and comparable antennas for at least two additional users if the telecommunications tower is over 100 feet in height, or for at least one additional user if the tower is over 60 feet in height.

2. *Review Procedure for Co-Location:* The co-location of additional antennas on an existing telecommunications tower shall require a Special Permit. With the Special Permit review process, the ZBA may limit the number of users to be located on a tower. Co-Location shall not require a site plan except if any one of the following are met:

A. An additional equipment building is proposed.

B. The additional antennas require an increase in the height or bulk of the telecommunications tower structure.

C. The additional antennas and any associated accessory structures require the removal of trees or understory vegetation.

3. *Co-Location Requirements:* A proposal for a new commercial wireless telecommunication service tower shall not be approved unless the Planning Board finds that the telecommunications equipment planned for the proposed tower cannot be accommodated on an existing or approved tower or building which will meet the needs of the tower due to one or more of the following reasons:

A. The planned equipment would exceed the structural capacity of the existing or approved tower or building, as documented by a qualified and licensed professional engineer, and the existing or approved tower cannot be reinforced, modified, or replaced to accommodate planned or equivalent equipment at a reasonable cost.

B. The planned equipment would cause interference materially impacting the usability of other existing or planned equipment at the tower or building as documented by a qualified and licensed professional engineer and the interference cannot be prevented at a reasonable cost.

C. Existing or approved towers and buildings within the area cannot accommodate the planned equipment at a height necessary to function reasonably as documented by a qualified and licensed professional engineer.

D. Other unforeseen reasons that make it infeasible to locate the planned telecommunications equipment upon an existing or approved tower or building.

7.6.8 Maintenance Guarantee. Recognizing the hazardous situation presented by abandoned and unmonitored telecommunications facilities, the Planning Board shall set the form and amount of security that represents the cost for removal and disposal of abandoned telecommunications facilities in the event that a facility is abandoned and the facility owner is incapable or unwilling to remove the facility in accordance with Section 7.6.9.

7.6.9 Removal of Abandoned Facilities.

1. *Abandoned by Lack of Operation:* A telecommunications facility shall be considered abandoned and be removed by the owner of the facility if it is not operated for a continuous period of 12 months. If the owner of

the facility does not remove the facility upon the Planning Officer's order, then the Planning Board shall, after holding a public hearing with notice to the owner and abutters, issue a declaration of abandonment. The owner of the facility shall dismantle and remove the facility within 90 days of receipt of the declaration of abandonment by the Planning Board. If the abandoned facility is not removed within 90 days, the City may use the security to pay for this action without further notice.

2. *Abandonment by Neglect:* A telecommunication facility shall be maintained in compliance with the standards contained in the Building Code adopted by the City of Lowell. If, upon inspection by the City, it is concluded that any part of a facility fails to comply with the Building Code and the facility constitutes a danger to persons or property, then upon notice provided to the owner of the facility, the owner shall bring the facility into compliance with the Building Code. If the owner fails to bring the facility into compliance within the time frame determined by the Code Enforcement Officer, then the Planning Board shall, after holding a public hearing with notice to the owner and abutters, issue a declaration of abandonment. The owner of the facility shall dismantle and remove the facility within 90 days of receipt of the declaration of abandonment by the Planning Board. If the abandoned facility is not removed within 90 days, the City may use the security to pay for this action without further action.

ARTICLE VIII SPECIAL RESIDENTIAL REGULATIONS

SECTION 8.1 CONVERSION OF LARGER BUILDINGS

8.1.1 Applicability. In SM2, UM2, M3, B1, B2, and B2A Districts, any large resident structure having been constructed more than sixty years ago, may, together, be with the original attached accessory structures, be altered as to contain two (2) or more dwelling units provided any required special use permits are obtained and the following requirements are met.

8.1.2 Conditions.

1. Minimum lot area per dwelling unit is provided as required by the district where the building is located. [Ord. 07-13-04]
2. Parking spaces as required for district building is located as provided on lot. All parking shall be located in side or rear yard in SM2 and UM2 zones.
3. The exterior design of the structure is not altered.
4. The minimum floor areas shall be six hundred thirty (630) square feet for studio or one-bedroom units, and eight hundred (800) square feet for two-bedroom units.
5. The original building area is not increased more than ten (10) percent of the gross floor area.
6. Open space and yard requirements are met.

8.1.3 Variance Required. In the event that conversion is proposed and the conditions set forth above cannot be met, a variance is required from the Board of Appeals. Such variance shall be in addition to any special permit required by the Table of Principal Uses.

SECTION 8.2 PLANNED RESIDENTIAL DEVELOPMENT (PRD)

8.2.1 Purpose. In a Planned Residential Development (PRD) the dimensional requirements of individual lots are relaxed in exchange for a set-aside of passive open space and active recreational areas for common or public use within the overall development parcel. The PRD also clusters building sites thereby minimizing the amounts of roadway, utilities, and other infrastructure that must be developed and ultimately maintained by the City of Lowell for a given number of building sites. The overall density of the development remains consistent with or below the density of existing City zones. This approach requires a special permit to be granted by the approval of a comprehensive development plan by the Planning Board in conjunction with subdivision approval. The PRD requirements set forth in this Section govern the project with the approval of the comprehensive plan. Permits for projects that do not conform to the existing zoning cannot be issued without this approval. PRD is a land use permitted only by special permit in the zones designated in the Table of Uses, Section 4.2. Therefore, approval of a planned development comprehensive plan and authorization to utilize the dimensional and other requirements permitted for Planned Residential Developments does not constitute a zoning amendment as defined in Chapter 40A of the Massachusetts General Laws.

8.2.2 Eligibility Requirements. To be eligible for a special permit for a PRD, the following specifications must be met:

1. The development site must contain not less than five (5) contiguous acres of land. The applicant must provide proof of ownership or an option to purchase all of these lands at the time of application. The applicant must have ownership of all of these lands in order to execute any special permit rights should they be granted.

2. The development site must not be defined in such a manner as to completely encircle any parcel not owned by the applicant or leave any such parcel without access.
3. The applicant must have a comprehensive development plan for the entire development site, to include all facilities to comply with applicable sanitary, building, and public safety codes and ordinances of the City of Lowell and Commonwealth of Massachusetts, and must be designed, constructed, and maintained in accordance with the statutes, regulations, and ordinances of the City of Lowell and the Commonwealth of Massachusetts.
4. Such a comprehensive development plan must be submitted to the Planning Board for its approval and must be in accordance with the stated or implied development objectives as identified in approved planning reports and studies of the City of Lowell and Regional Planning Agency. Said submission must be made along with formal submission of all documents required for subdivision approval under the provisions of the Subdivision Control Law, G.L. c. 41, ss. 81K-81GG and the City of Lowell's Subdivision of Land Regulations. Such approval is required prior to the issuance of a building permit for any lot to be governed by the requirements established for a planned residential development.
5. The Planning Board must be satisfied that adequate financing exists for applicant to complete the proposed development. The Planning Board shall require that a performance bond be established in the manner outlined in the City of Lowell's Subdivision of Land Regulations to insure that the proposed work is completed.

8.2.3 Application. In order to establish a PRD, the applicant must submit a comprehensive development plan for approval by the City of Lowell Planning Board to obtain a special permit. This submission may be made in conjunction with either a preliminary subdivision plan or a definitive subdivision plan in the event that no preliminary plan is submitted. In addition to all the requirements of a preliminary or definitive subdivision plan, the comprehensive development plan must include the following information:

1. A legal description and map of the area proposed for a planned development, showing existing land uses and zoning boundaries.
2. Proof of title to or agreement or option to purchase all property located within the proposed planned development area.
3. A site plan for a typical building lot for each proposed type of use (single family residence, two family residence, etc.) illustrating how the building(s), required parking, and landscaping will be placed on a typical lot.
4. Perspective sketches, elevations and/or renderings showing proposed streetscapes and building designs.
5. Plans indicating dedicated recreational and conservation open space areas and a proposal for how they will be administered including drafts of any covenants or deed restrictions that may be used to preserve the open space.
6. Locations of abutting and nearby conservation and other open space areas that may be enhanced or augmented by the open space proposed in the planned development.
7. Plans and other documentation as necessary to indicate any facilities to be owned or used in common by the residents of the planned development, including, but not limited, to recreation facilities, social halls, meeting rooms, community centers, recycling centers, and trash storage areas.
8. Evidence of the applicant's financial ability to complete the development as planned.

9. A written notarized statement by the legal applicant stating that the comprehensive plan submitted will be adhered to and will not be modified without prior approval of the Planning Board.

8.2.4 Procedures. Prior to approval, a public hearing on the proposed planned development must be held before the Planning Board. All advertising and notification requirements for a special permit public hearing shall be met for this public hearing even if done in conjunction with a preliminary subdivision plan application. A single notice shall be used to inform interested parties of a public hearing that functions as both a comprehensive plan special permit review and a definitive subdivision plan review. Such notice must conform to all of the requirements set forth G.L. c. 40A, s. 9, G.L. c. 41, s. 81U, and the City of Lowell Subdivision of Land Regulations.

1. In addition, the applicant must submit a complete copy of the application to the Zoning Board of Appeals within seven (7) days of submission of said application to the Planning Board. The Zoning Board of Appeals may submit a written recommendation on the application to the Planning Board.

8.2.5 Permitted Land Use Activities in a PRD. The following land use activities may be proposed in a planned residential development comprehensive plan submitted to the Planning Board for special permit review. The Planning Board will not grant a special permit if other land-use activities are proposed within the plan.

1. Single-family residential;
2. Two family residential, provided such lot is not with an underlying S1 or S2 District;
3. Places of worship;
4. Public or private elementary or secondary schools;
5. Municipal park or recreational facility;
6. Licensed child care facility or kindergarten;
7. Library or museum;
8. Nonprofit recreational facility;
9. Nonprofit community center;
10. Public utility or service equipment facilities;
11. Telecommunications facilities, in conformance with all of the requirements of Section 7.6.

8.2.6 Dimensional Requirements. The following dimensional requirements govern the layout of individual lots within a PRD for which comprehensive plan approval has been obtained from the Planning Board. The applicable dimensional requirements shall be those set forth in Table 8.2.1 or, for lots in an S1 or S2 District, 70% of the requirement for the underlying district, whichever is larger.

	Planned Residential Development
Min. Lot Area (SF)	4250 (single family) 5500 (two family & all other uses)
Max. F.A.R.	1.0
Max. Density of Planned Development (Units/Acre)	15
Min. Frontage (ft)	45
Min. Front Setback (ft)	15
Min. Side Setback (ft)	5 (sum of 20)
Min. Rear Setback (ft)	20
Max. Height	35
Max. No. of Stories	2.5
Min. Parking Space (ft)	8.5 x18
Min. Parking setback from prop. Line (ft)	3
Min parking setback from building* (ft)	3
Off-street parking spaces per dwelling unit	2

8.2.7 Open Space Requirements. In any PRD, 25% of the land area of the overall development site must be set aside for active recreation and/or passive open space to be allocated as outlined in this section.

1. To satisfy this requirement, the required open space must include at least one recreational parcel equal to the lesser of one-fifth of the total required open space or one acre of contiguous land area available for active recreational use. This recreational open space area may take the form of a playing field or large open area, a linear exercise path or trail, or some combination of the two so long as the land is contiguous.
2. The required open space area must also include at least one conservation parcel equal to the lesser of two-fifths of the total required open space or two acres of contiguous land area for permanent conservation. This land shall not be significantly disturbed during construction. Wetlands and flood plain areas may be used to satisfy this requirement.
3. If specifically approved by the Planning Board, planting areas in excess of ten feet wide (including sidewalks) along streets and boulevards or landscaped islands within rights-of-way may be used to satisfy no more than one-fifth of the total open space requirement for a planned development.
4. The remaining required open space may be any combination of recreational or conservation land but shall be in contiguous parcels equal to the lesser of five percent (5%) of the total development area or one-half acre.
5. All open space parcels must be preserved as open space through one of the following mechanisms, subject to the approval of the City of Lowell Planning Board:
 - A. Acceptance by the City of Lowell or the Commonwealth of Massachusetts as protected open space for conservation, recreation, or park purposes, after obtaining all approvals that may be required.

Common ownership by a homeowners association with restrictions in the master deed requiring that these lands remain as protected open space in perpetuity.

B. Transfer of ownership or all development rights to a local or regional nonprofit entity dedicated to and having a proven track record with the ownership and maintenance of park and conservation lands. This transfer must include deed restrictions protecting the open space in perpetuity.

6. In the case of open space located within a public right-of-way only, acceptance by the City of Lowell as part of a right-of-way for a public way.

7. The dedicated open space parcel(s) within the planned development may be expanded but cannot be reduced.

8.2.8 Signage and Parking Requirements.

1. Signage shall be regulated in the same manner as the S1, S2 and TF Residence Districts.

2. Off-street parking facilities shall be provided for all uses in the same quantities and manner as required in S1, S2 and TF Residence Districts.

8.2.9 Screening Requirements. Any trash storage area or dumpster used by more than two dwelling units must be adequately screened from abutting properties, open space areas, and public ways.

1. Off-street open-air parking for more than three vehicles must be screened from abutting properties as outlined in Section 6.1 of this ordinance.

8.2.10 Conservation Commission. No review and approval authority granted to the Lowell Conservation Commission by the City of Lowell or the Commonwealth of Massachusetts shall be limited or constrained by the approval of a planned development comprehensive plan.

8.2.11 Decision. A special permit shall not be granted if the PRD does not meet the open space requirements and eligibility requirements specified in this ordinance. A special permit shall not be granted for a PRD if more than 10% of the lots do not meet the dimensional requirements specified in Section 8.2.6 of this Section.

8.2.12 Variances. Post development, following acceptance by the City of Lowell of all public ways and public infrastructure in the development, individual property owners may request variances from dimensional requirements in the same manner as any other property owner in the City of Lowell.

8.2.13 Lapse. A special permit granted by the Planning Board for a PRD shall lapse within two (2) years of approval if substantial construction thereof has not commenced, except for good cause, by such date.

8.2.14 Additional Restrictions. The Planning Board may, in appropriate cases as it determines, impose further conditions, safeguards, of restrictions upon the development or parts thereof as condition to granting the special permit and approval of a comprehensive plan for a planned residential development.

8.2.15 Applicability of Other Sections of this Ordinance. The approval of a PRD does not waive or compromise the applicability of any other Section of this ordinance unless specifically noted above. In the event of a conflict or inconsistency between the provisions of the PRD sections set forth above and other sections of this ordinance, the PRD provisions shall govern.

SECTION 8.3 RESIDENTIAL DEVELOPMENT IN INDUSTRIAL DISTRICT

8.3.1 General. Certain residential developments may be permitted by special permit granted by the Zoning Board of Appeals in the Industrial District, as set forth in the Table of Uses, Article XII.

8.3.2 Criteria. In addition to the criteria set forth in Section 11.3, the ZBA shall consider the following:

1. The Applicant shall demonstrate that the combination of the direct net municipal fiscal impact of the proposed residential development and the quantifiable added value that the proposed development brings to adjacent commercial or industrial properties equals or exceeds the direct net municipal fiscal impact of the potential "highest and best use" industrial or commercial development of the same site.

2. In making this determination, the ZBA shall consider fiscal impacts upon:

- Public education
- Transportation infrastructure (including roadway construction, maintenance, and traffic control)
- Water and sewer infrastructure
- Public safety
- Solid waste disposal
- Other public works
- General municipal services

8.3.3. Burden of Proof. The burden of proof shall be upon the Applicant to demonstrate that the requisite finding may be made by the ZBA. In order to meet this burden, the ZBA may require the Applicant to engage a qualified economic analyst.

8.3.4 Technical Review. Where the Applicant has been required to submit an economic analysis, the ZBA may establish an escrow account, pursuant to G.L. c. 44, s. 53G, and require the Applicant to fund same. The ZBA may use such funds to engage a technical consultant to perform a peer review.

ARTICLE IX. OVERLAY DISTRICTS

SECTION 9.1 FLOOD PLAIN OVERLAY DISTRICT (FPOD)

9.1.1 Purpose. The purposes of the Flood Plain Overlay District (FPOD) are to:

1. Ensure public safety through reducing the threat to life and personal injury;
2. Eliminate new hazards to emergency response officials;
3. Prevent the occurrence of public emergencies resulting from water quality, contamination and pollution due to flooding;
4. Avoid the loss of utility services which, if damaged by flooding would disrupt or shut down the utility network and impact regions of the community beyond the site of flooding;
5. Eliminate costs associated with the response and cleanup of flooding conditions;
6. Reduce damage to public and private property resulting from flooding waters.

9.1.2 Location. The FPOD includes all special flood hazard areas designated on the City of Lowell Flood Insurance Rate Map (FIRM) issued by FEMA (successor to the U.S. Department of Housing and Urban Development (HUD) for the administration of the NFIP dated September 30, 1992 as Zone A, AE, AH, AO, A1-30, A99 and the Federal Emergency Management Agency Flood Boundary and Floodway Map dated May 15, 1991, both maps which indicate the 100-year regulatory floodplain. The exact boundaries of the FPOD may be defined by the 100-year base flood elevations shown on the FIRM and further defined by the Flood Insurance study booklet dated May 15, 1991. The FIRM, Floodway Maps and Flood Insurance Study booklet are incorporated herein by reference and are on file with the City Clerk, Planning Board, Building Official, and Conservation Commission.

9.1.3 Applicability. The FPOD is herein established as an overlay district. All development, including structural and nonstructural activities, whether permitted by right or by special permit must be in compliance with G.L. c. 131, s. 40 and with the requirements of the Massachusetts State Building Code pertaining to construction in the floodplains. The FPOD regulations shall supersede other requirements of this chapter where more stringent standards are imposed.

9.1.4 Definitions. For the purposes of this Section 9.1, the following definitions shall apply:

Area of Special Flood Hazard: The land in the floodplain within a community subject to a one percent or greater chance of flooding in any given year. The area may be designated as Zone A, AO, AH, A1-30, AE, A99, VO or V1-30, VE or V.

Base Flood: The flood having a one percent chance of being equaled or exceeded in any given year.

Development: Any manmade change to improved or unimproved real estate, including but not limited to building or other structures, mining, dredging, filling, grading, paving, excavation or drilling operations.

District: The FPOD.

Federal Emergency Management Agency (FEMA): Administers the National Flood Insurance Program. FEMA provides a nationwide flood hazard area mapping study program for communities as well as regulatory standards for development in the flood hazard.

FIRM: City of Lowell Flood Insurance Rate Maps dated September 30, 1992.

Floodproofed: Watertight with walls substantially impermeable to the passage of water and with structural components having the capability of resisting hydrostatic and hydrodynamic loads and effect of buoyancy.

Flood Hazard Boundary Map (FHBM): An official map of a community issued by FEMA where the boundaries of the flood, mudslide (i.e. Mudflow) related erosion areas having special hazards have been designated as Zones A, M and/or E.

Flood Insurance Study: An examination evaluation and determination of flood hazards and, if appropriate, corresponding water surface elevation, or an examination, evaluation and determination of mudslide (i.e. mudflow) and/or flood-related erosion hazards.

Floodway: See “Regulatory Floodway”.

Functionally Dependent Use: A use which cannot perform its intended purpose unless it is located or carried out in close proximity to water. The term includes only docking facilities, port facilities that are necessary for the loading and unloading of cargo or passengers, and ship building and ship repair facilities, but does not include long-term storage or related manufacturing facilities.

Lowest Floor: The lowest floor of the lowest enclosed area (including basement or cellar). An unfinished or flood resistant enclosure, usable solely for parking of vehicles, building access or storage in an area other than a basement area is not considered a building’s lowest floor; provided, however, that such enclosure is not built so as to render the structure in violation of the applicable non-elevation design requirements of Section 60.3 of the National Flood Insurance Program.

Manufactured Home: A structure, transportable in one or more sections, which is built on a permanent chassis and is designed for use with or without a permanent foundation when connected to the required utilities. For floodplain management purposes the term “manufactured home” also includes park trailers, travel trailers, and other similar vehicles placed on a site for greater than 180 consecutive days. For insurance purposes the term “manufactured home” does not include park trailers, travel trailers, and other similar vehicles.

Manufactured Home Park or Subdivision: A parcel (or contiguous parcels) of land divided into two or more manufactured home lots for rent or sale.

New Construction: For the purpose of determining insurance rates, structures for which the “start of construction” commenced on or after the effective date of an initial FIRM or after December 31, 1974, whichever is later. For floodplain management purposes “new construction” means structures for which the “start of construction” commenced on or after the effective date of a floodplain management regulation adopted by a community.

100-Year Flood: See “Base Flood”.

Regulatory Floodway: The channel of a river or other watercourse and the adjacent land areas that must be reserved in order to discharge the base flood without cumulatively increasing the water surface elevation.

Special Hazard Area: An area having special flood, mudslide (i.e., mudflow) and/or flood-related erosion hazards, and shown on an FHBM or FIRM as Zone A, AO, A1-30, AE, A99, AH, E.

Structure: For floodplain management purposes a walled and roofed building, including a gas or liquid storage tank, that is principally above ground, as well as a manufactured home.

Structure: For insurance coverage purposes, means a walled and roofed building, other than a gas or liquid storage tank, that is principally above ground and affixed to a permanent site, as well as a manufactured home on foundation. For the latter purpose, the term includes a building while in the course of construction, alteration or repair, but does not include

building materials or supplies intended for use in such construction, alteration or repair, unless such materials or supplies are within an enclosed building on the premises.

Substantial Improvement: Any repair, reconstruction, or improvement of a structure, the cost of which equals or exceeds 50 percent of the market value.

ZONE A1-A30 and ZONE AE: The 100-year floodplain where the base flood elevation has been determined.

ZONE AH and ZONE AO: The 100-year floodplain with flood depths of 1 to 3 feet.

ZONE A99: Areas to be protected from the 100-year flood by Federal flood protection system under construction. Base flood elevations have not been determined.

9.1.5 Floodway Data.

1. In Zones A, the best available Federal, State, Local or other floodway data shall be used to prohibit encroachments in floodways which would result in any increase in flood levels within the community during the occurrence of the base flood discharge.
2. In Zones A1-30 and AE, along watercourses that have not had a regulatory floodway designated, no new construction, substantial improvement, or other development shall be permitted unless it is demonstrated that the cumulative effect of the proposed development, when combined with all other existing and anticipated development, will not increase the water surface elevation of the base flood.
3. In Zones A1-30 and AE, along watercourses that have a regulatory floodways designated on the City of Lowell FIRM or Flood Boundary Floodway Map (FIRM) encroachments are prohibited in the regulatory floodway which would result in any increase in flood levels within the community during the occurrence of the base flood discharge.

9.1.6 Procedures; Building Commissioner. The following procedures shall apply to all development in the FPOD:

1. Prior to any development a permit shall be obtained from the Building Commissioner and a “request for determination” of applicability of G.L. c. 131, s. 40 shall be sent to the Lowell Conservation Commission. There shall be established a routing procedure which will circulate or transmit one copy of the development plan to the Conservation Commission, Planning Board, Board of Health, City Engineer, and City Clerk for comments which will be considered by the appropriate permitting board prior to issuing applicable permits.
2. Prior to the issuance of any necessary permit the Building Commissioner and/or the Conservation Commission shall:
 - A. Review proposed development to assure that all necessary permits have been received from those governmental agencies from which approval is required by Federal or State law, including Section 404 of the Federal Water Pollution Control Act Amendments of 1972, 33 U.S.C. 1334, G.L. c. 131, s. 40, and 310 CMR 10.00, as amended;
 - B. Review subdivision proposals and other proposed new development, including manufactured home parks or subdivision, to determine whether such proposals will be reasonably safe from flooding. If a subdivision proposal or other proposed new development is in a flood-prone area, any such proposals shall be reviewed to assure that (i) all such proposals are consistent with the need to minimize flood damage within the flood-prone area, (ii) all public utilities and facilities, such as sewer, gas, electrical, and water systems are located and constructed to minimize or eliminate flood damage, and (iii) adequate drainage is provided to reduce exposure to flood hazards;

C. Require that all new subdivision proposals and other proposed developments (including proposals for manufactured home parks and subdivisions) greater than 50 lots or 5 acres, whichever is the lesser, include within such proposals base flood elevation data;

D. Require within flood-prone areas new and replacement water supply systems to be designed to minimize or eliminate infiltration of flood waters into the systems;

E. Require the flood-prone areas (I) new and replacement sanitary sewage.

9.1.7 Procedures; Conservation Commission. Prior to any alteration or relocation of a watercourse where an Order of Conditions has been issued, the Conservation Commission shall, at the applicant's expense, notify adjacent communities, the Massachusetts Division of Water Resources as the state coordinating agency, and the Federal Insurance Administration. Said notification shall be by mailing a copy of the Order of Conditions to each of the aforementioned by certified mail, return receipt requested; and

1. Make a determination that the flood carrying capacity within the altered or relocated portion of any watercourse is maintained.

2. That prior to the issuance of any building permit in a floodplain that fourteen (14) days' public notice be given the application by the department of code and inspections.

3. The application for permit shall contain plans certified by a registered land surveyor and/or engineer of the proposed construction or development and plot plan locating the proposed building and existing buildings on the premises on which it is to be situated or is situated. All plans shall show existing and proposed finished ground contours at two-foot intervals. Contours shall be delineated within two hundred (200) feet of the proposed construction or development.

9.1.8 Minimum Conditions. For "substantial improvements" of existing residential and nonresidential structures and all new construction, the following minimum conditions shall be met:

1. The lowest floor, including basement or cellar, shall be elevated to or above the base flood elevation (the 100-year flood elevation designated on the FIRM) or in the case of nonresidential structures be floodproofed watertight to the base flood level.

2. Furnaces and utilities are protected from the effects of flooding.

3. The structure will withstand the effects of flooding. The ground level around the extending twenty-five (25) feet outward from any building or structure in the FPOD shall be raised as necessary so that no part of the ground level area so defined, shall be below the elevation shown on the FIRM as defined herein. Embankments subject to possible scouring by floodwaters shall be properly stabilized and protected to prevent erosion by floodwaters.

4. Other lands in the district will not be adversely affected by the proposed development, through increased height or velocity of future floods.

5. The containment of sewage, safety of gas, electric fuel and other utilities from breaking, leaking, short circuiting, grounding, igniting, electrocuting, or any other dangers due to flooding, will be adequately protected.

6. Where watertight floodproofing of a structure is permitted, a registered professional engineer or architect shall certify to the building commissioner that the methods used are adequate to withstand the flood depths, pressures and velocities, impact and uplift, and other factors associated with the 100-year flood and all in accordance with the State Building Code requirements.

7. A registered engineer and/or architect shall certify to the building commissioner that the above minimum conditions are satisfied in the design proposal.

8. A registered land surveyor or engineer shall certify to the building commissioner that all minimum elevations required by this FPOD, have been complied with after construction.

9. Within Zones AH and AO on the FIRM, adequate drainage paths around structures on slopes, to guide floodwaters around and away from proposed structures shall be provided.

Existing contour intervals of site and elevations of existing structures must be included on plan proposal.

9.1.9 FIRM Elevations. Within Zones A1-A30 where base flood elevations are provided on the FIRM elevations shall be determined by interpolation between the nearest elevations shown on the FIRM.

1. Within Zone A where the base flood elevation is not provided on the FIRM, the applicant shall obtain any existing base flood elevation data and it shall be reviewed by the building commissioner for its reasonable utilization toward meeting the elevation or floodproofing requirements, as appropriate, of the State Building Code and this FPOD.

2. Interpretations as to elevations or locations within the FIRM shall be made by the building commissioner.

9.1.10. Floodway. In the “floodway” the following provisions shall apply:

1. No encroachments, including but not limited to fill, new construction, substantial improvements and other developments shall be permitted unless certification by a registered professional engineer or architect is provided by the applicant demonstrating that encroachments shall not result in any increase in flood levels during the occurrence of the 100-year flood.

2. Any encroachment meeting the above standard shall comply with all other provisions of the FPOD.

9.1.11 Denial. In the event the building commissioner denies an applicant a building permit under the FPOD, the building commissioner’s decision shall be in writing stating the reasons why said building permit was denied, and shall render his decision within five (5) days of submission of the completed application by the applicant and that further said decision shall be sent to the applicant’s address by certified mail and copies of said decision should be submitted to the offices of the city clerk, Planning Board and city solicitor.

9.1.12. Permitted Uses. The following uses of low flood damage potential and causing no obstructions to flood flows are encouraged, provided they are permitted in the underlying district and they do not require structures, fill or storage of materials or equipment:

1. Agricultural uses such as farming, grazing, truck farming, horticulture, etc.;

2. Forestry and nursery uses;

3. Outdoor recreational uses, including fishing, boating, play areas, etc.;

4. Conservation of water, plants, wildlife;

5. Wildlife management areas, food, bicycle, and/or horse paths;

6. Temporary nonresidential structures used in connection with fishing, growing, harvesting, storage, or sale of crops raised on the premises;

7. Buildings lawfully existing prior to the adoption of these provisions.

9.1.13. Variance from FPOD Regulations. Any person desiring a variance from any FPOD regulations as set forth in Section 9.1, shall submit an application to the Board of Appeals in accordance with the requirements set forth by G.L. c. 40A, s. 10. The application shall also contain plans as required herein.

1. Copies of the complete application with plans for variance shall also be sent or delivered forthwith by the applicant, to the building commissioner, board of health, commissioner of public works, (engineering division), Planning Board and conservation commission for their recommendations to the Board of Appeals.
2. No building permit shall be issued by the department of code and inspections if there is an appeal from the building commissioner's denial until and unless the Board of Appeals has granted a variance under these regulations and restrictions.
3. The Board of Appeals may grant a variance from the FPOD under this section only if it finds that the proposed development and/or construction will not adversely affect the public health or safety, or endanger the health, safety or welfare of the occupants of the land in the FPOD all in accordance with G.L. c. 40A, s. 10, and the State Building Code requirements. In its consideration of any application for a variance under this section, but without limiting the generality of the foregoing, the Board of Appeals shall absolutely not relax the minimum conditions stated in the variance policy attached hereto and made a part hereof.

9.1.14 Variance Policy. FIA regards the 100-year frequency flood standard as essential to assure reasonable protection to future construction. At the same time, variances from this standard may be authorized in particular cases, primarily within areas that are almost entirely developed. However, since the use of such a variance results in expensive actuarial flood insurance rates, it may subject the property owner to a financial penalty that over the years could be far in excess of the one-time cost of elevating. The likelihood cannot be overemphasized; actuarial flood insurance rates increase sharply for each foot a structure falls short of the 100-year level. FIA does not set forth absolute criteria for granting variances. The community, after examining the applicant's hardships, will approve or disapprove a request. While the granting of variances generally is limited to a lot size less than one-half acre, deviations from that limitation may occur. However, as the lot size increases beyond the one-half acre, the justification for a variance issuance should significantly decrease. In all circumstances, FIA may review a community's justification for granting a variance and, if the community's evidence of unusual hardship or just and sufficient cause is found wanting through a pattern of variance issuances inconsistent with the objectives of sound floodplain management, we may institute suspensive action. Procedures for the granting of variances by a community are as follows:

1. Variances shall not be issued by a community for any new construction, substantial improvement, or other development in a designated floodway which would result in any increase in flood heights within the community during the recurrence of the 100-year flood discharge.
2. Variances may be issued by a community, without regard to the procedures set forth herein, for the reconstruction or restoration of structures listed on the National Register of Historic Places or a state inventory of historic places.
3. Variances may be issued by a community, in conformance with the procedures set forth herein, for new construction to be erected on a lot of one-half acre or less in size, contiguous to and surrounded on all sides by lots with existing structures constructed below the flood protection elevation.
4. Variances shall not be issued by a community except upon (i) a showing of good and sufficient cause, (ii) a determination that failure to grant the variance would result in exceptional hardship to the applicant, and (iii) a determination that the variance issuance will not result in increased flood heights, additional threats to public safety, extraordinary public expense, create nuisances, cause fraud on or victimization of the public, or conflict with existing local laws or ordinances.
5. Variances may only be issued upon a determination that the variance shall be the minimum necessary to afford relief.
6. A community must notify the applicant that the issuance of a variance to locate a structure at an elevation below the 100-year flood level will result in increased actuarial rates for flood insurance coverage.

7. A community must (i) include, within its annual report submitted to the administrator, the number of variances issued, and (ii) maintain a record of all variances granted, including justification for their issuance.

9.1.15. Health Regulations in the FPOD. The board of health, in reviewing all proposed water and sewer facilities to be located in the FPOD, shall require that:

1. New and replacement water supply systems and connections therewith, shall be designed to minimize or eliminate infiltration of flood waters into the systems.
2. New and replacement sewage systems and connections therewith shall be designed to minimize or eliminate infiltration of floodwaters into the systems and discharges from the systems into floodwaters.
3. Backwater valves shall be installed in all new sewer connections below base flood elevation.

9.1.16. Federal Flood Insurance Study. For the purpose of clarification of any section contained in the FPOD, reference shall be made to the U.S. Department of Housing and Urban Development, Federal Insurance Administration, Flood Insurance Study pamphlet, which study is herein incorporated and attached hereto. Reference to this pamphlet shall be made for clarification whenever possible.

SECTION 9.2 ARTIST OVERLAY DISTRICT (AOD)

9.2.1 Purpose. The Artist Overlay District (AOD) is established for the purpose of encouraging artists, to both live and work in the downtown area thereby promoting a venue for and encouraging further concentration of art, cultural and entertainment attractions in the downtown area.

9.2.2 Location. The AOD is shown on the Zoning Map.

9.2.3 Special Permit Required. The use of a building or structure for Artist Live/Work Space for art use by an artist shall require a special permit from the Zoning Board of Appeals.

9.2.4 Criteria. In addition to the criteria for consideration specified under Section 11.3, the standards and requirements of this Article and the Site Plan Review Regulations shall be considered by the Zoning Board of Appeals and Planning Board.

9.2.5 Conversion of Existing Buildings. Within the AOD, any existing building more than 65 years old may be converted to artist live/work or residential use, containing two (2) or more dwelling units provided the following requirements are met:

1. Any special permit otherwise required herein is obtained.
2. Parking spaces as required by this zoning Ordinance are provided.
3. The minimum floor areas shall be seven hundred fifty (750) square feet for studio or one-bedroom units and nine hundred (900) square feet for units with two or more bedrooms; provided, however, that where the applicant demonstrates that the project is consistent with established planning and policy goals of the City of Lowell, as many as fifty percent (50%) of the units in any one project may be smaller than these minimums by special permit. The petition for said special permit must be advertised separately from any special permits required otherwise herein.
4. All dimensional requirements of the underlying zone are met.

SECTION 9.3 LOWELL MULTI-FAMILY DEVELOPMENT INTERIM PLANNING OVERLAY DISTRICT (IPOD)

9.3.1 Intent and Purpose. This Section is adopted pursuant to the provisions of M.G.L. c. 40A and the Home Rule

Amendment, Article 89 of the Massachusetts Constitution. This Section is based on the anticipation that the City of Lowell shall develop a new zoning map and new zoning districts to conform with the 2003 Comprehensive Master Plan adopted by the Lowell Planning Board on July 14, 2003, and to protect the health, safety and welfare of the City of Lowell.

This Section therefore has the following purposes:

1. to ensure that growth occurs in an orderly and planned manner;
2. to provide the City with time to study the effects of residential growth on the municipality's infrastructure, character, and municipal services, and to prepare a new zoning map and districts to reflect the City's goals relative to these issues;
3. to preserve and enhance the existing community character; and
4. to provide the City with time to study proposed new zoning districts, dimensions, and a new zoning map for the City of Lowell.

9.3.2 Interim Planning Overlay District Boundaries. The interim planning overlay district (IPOD) hereby created encompasses all of the land within areas of the City of Lowell that is located in the following zoning districts: SM2 (Suburban Multifamily), UM2 (Urban Multifamily) and M3 (Multifamily).

9.3.3 Applicability.

1. For up to one (1) year from the effective date of Section 9.3, and not after one (1) year from said effective date, or September 1, 2005 whichever date is sooner (unless extended as provided in Section 9.3.5), all multi-family developments, including townhouse developments, within the interim planning overlay district including four or more dwelling units shall require an IPOD Special Permit from the Planning Board.

2. All projects which require an IPOD Special Permit shall be subject to the procedural requirements for Site Plan Review (Section 11.4) and a Special Permit (Section 11.3) outlined in this Lowell Zoning Ordinance. All required public hearings may be held concurrently, subject to all applicable notice and advertising requirements. Approval of the IPOD Special Permit shall be subject to the criteria for special permits listed in section 11.3.2 and the criteria for site plan review listed in section 11.4.10. The IPOD Special Permit may also include additional conditions designed to minimize unreasonable departure from or adverse effects on the integrity and character, building scale, building materials, and land use patterns of the surrounding neighborhood.

9.3.4 Administration. The Planning Board may adopt reasonable administrative and technical review fees as well as rules and regulations for the administration of the IPOD Special Permit.

9.3.5 Expiration and Extension. The provisions of this Section 9.3 shall automatically expire at 12:00 AM (midnight) one (1) year from the effective date of said Sec 9.3, or September 1, 2005, whichever date is sooner, unless extended by a two-thirds (2/3) vote of the City Council following the procedures for a zoning amendment set forth in M.G.L. Chapter 40A and this Zoning Ordinance, but under no circumstances may the total extension period exceed one (1) year.

[Ord. 8/10/04]

ARTICLE X. PLANNED DEVELOPMENT DISTRICTS

SECTION 10.1 PLANNED DEVELOPMENT-MIXED USE (PD-MU)

10.1.1 Purpose. The purpose of the Planned Development – Mixed Use (PD-MU) District is to promote the economical and efficient use of land, an improved level of physical amenities, appropriate and harmonious physical development, creative and imaginative design and the overall improvement of the urban environment for the welfare of the entire community. More specifically, this district is intended to promote and encourage the planned and orderly development of sites that have been previously developed and which are now vacant or under utilized.

10.1.2 Minimum Requirements. To qualify for PD-MU zoning, the following specifications must be satisfied:

1. Any PD-MU zone shall contain not less than five (5) contiguous acres of land, while a minimum of 30% of the site must be occupied or have been occupied by buildings or structures for a period of not less than 30 years.
2. The applicant shall have a comprehensive development plan for the entire zone, to include all sanitary facilities as required by the health and building codes of the city, and shall be designed, constructed and maintained in accordance with the statutes, ordinances and regulations of the city and the Commonwealth of Massachusetts.
3. Such a comprehensive development plan must be submitted to the Planning Board for its approval and be in accord with the stated or implied development objectives as listed in approved planning reports and studies of the city. Such approval is required prior to the issuance of a permit to build.
4. The Planning Board shall be satisfied that adequate financing exists for the development.

10.1.3 Use Regulations. The following uses are to be allowed in the PD-MU zone:

1. *Primary Uses:* Primary uses will be from one or more of the following categories: residential, retail, service, general office, research and development, and recreational facilities. It is further intended to ensure that adequate open space and development regulations will create a favorable environment for abutting uses as well as ensuring the compatibility and harmonious existence of development within the PD-MU zone. Businesses located within this District are encouraged to provide street level uses which allow for, and facilitate, pedestrian activity for area residents, workers, and visitors.
2. *Accessory Uses:* The limitations on accessory uses contained in Sections 4.2 shall not apply in any PD-MU zone. Any other use, which is ancillary, and ordinarily incident to, any of the foregoing primary uses will also be deemed to be appropriate. For all uses that were not indicated in the approved Comprehensive Plan and which are not indicated in paragraph 1 of this section, the applicant should refer to Article XII of the Lowell Zoning Ordinance, which has been amended to incorporate the new PD-MU zone.

10.1.4 Development Standards. The development shall harmonize with existing adjacent land uses and not interfere with the privacy and amenity of adjacent properties. To achieve these objectives, the following standards shall be met:

1. **Dimensional Requirements.** More than one building may be located on a single lot within the PD-MU zone. There shall be no requirement for setbacks for any interior lot lines within the PD-MU zone (i.e. lot lines separating individual lots within the PD-MU zone). The maximum height shall be 100 feet and 8 stories. The maximum floor area ratio shall be 4.0. There shall be no minimum frontage requirement in the PD-MU zone. Parking areas shall be set back ten (10) feet from any building and five (5) feet from any external lot line.
2. **Screening.** All undesirable visual elements shall be properly screened including, but not limited to the following:

- A. Trash storage - solid screening required;
- B. Open storage – solid screening required;
- C. Utility equipment and structures - solid screening required;;
- D. Parking - as required in Section 6.1.

3. Landscaping: Five (5) percent of required parking areas shall be required for landscaping. Such landscaping shall be distributed evenly throughout the entire parking area. This landscaping requirement is in addition to the parking requirement.

4. Access. All structures shall have vehicular access to a public street.

5. Parking. The parking requirements for all uses within the PD-MU zone, (except for those uses indicated in Section 6.1.5 where one (1) stall per dwelling unit shall be required) shall be one (1) stall for each eight hundred (800) square feet of gross floor area for all lawful uses within the zone. There shall be a minimum of 300 square feet of paved area per parking space for all parking areas located within the PD-MU zone. The provisions herein shall not apply to parking areas located within the PD-MU zone.

6. Loading. A minimum of one loading bay shall be required for any building in the PD-MU zone containing in excess of 15,000 square feet of gross floor area. Loading areas shall be designed so as to adequately accommodate anticipated deliveries and so as to be appropriately screened from abutting Residential Districts. The provisions of Section 6.2.2, 6.2.3, and 6.2.4 shall not apply in the PD-MU zone.

10.1.5 Subdivision of Land. Land within this district may be subdivided, but consistent with the original approved plan, so long as each separate lot within the PD-MU District meets the setback, floor area ratio, parking and landscaping requirements applicable to the PD-MU District as a whole. Any land so subdivided need not meet the minimal lot area otherwise set forth in the Zoning Ordinance, nor shall there be any required setbacks between lots in the PD-MU zone.

10.1.6 Rezoning Procedure. Application for a zone change to PD-MU zone shall be made in accordance with G.L. c. 40A, s. 5. Prior to the granting of a PD-MU zone change, the applicant shall submit to the Planning Board, with copies to the Inspectional Services Department, the following:

- 1. Description and map of the area to be rezoned, showing existing land use and zoning;
- 2. Proof of title to or agreement to purchase all property in the area;
- 3. A Comprehensive plan for the proposed PD-MU zone detailing proposed uses and showing perspectives, elevations and renderings to explain the physical aspects of the plan. The plan shall include existing as well as proposed buildings and other improvements. Architectural plans of proposed individual buildings should also be included;
- 4. A plan for utilities, transportation and safety facilities for project area;
- 5. Proof of availability of financing for project;
- 6. A written notarized statement by the legal applicant stating that such comprehensive plan will be adhered to and will not be modified without prior approval of the Planning Board;

10.1.7 Review. An application shall be considered “not submitted” until all the items outlined above are in the hands of the Planning Board. The Planning Board, thereafter, shall hold a public hearing as set forth in G.L. c. 40A, s. 5, as

amended. The applicant is required to notify organized and recognized citizen groups in adjacent areas to the proposed development, if any, at the time of original application and after amendment, if enacted. Applicant shall execute any time extensions requested by the Planning Board in order to fully evaluate the plan and zoning ordinance.

10.1.8 Decision. Upon complete submission of the material set forth herein, the Planning Board shall formally act on the Comprehensive Plan. The Planning Board shall make its report and recommendation on the proposed PD-MU zone change to the City Council pursuant to G.L. c. 40A, s. 5. Thereafter, upon approval of the zone change by the City council the applicant shall then follow regular procedures to obtain a building permit as detailed in this Ordinance and in accordance with other applicable legal requirements. Detailed site plans and architectural plans will be submitted in accordance with zoning and subdivision laws, to the extent applicable.

SECTION 10.2 PLANNED DEVELOPMENT-MEDICAL/INSTITUTIONAL (PD-MI)

10.2.1 Purpose. The purpose of the Planned Development - Medical/Institutional (PD-MI) District is to promote the economical and efficient use of land, an improved level of physical amenities, appropriate and harmonious physical development, creative and imaginative design and the overall improvement of the urban environment for the welfare of the entire community. More specifically, this article is intended to promote and encourage the planned and orderly development and expansion of educational institutions and acute medical facilities.

10.1.2 Minimum Requirements. To qualify for PD-MI zoning, the following specifications must be satisfied:

1. The institution must be an existing licensed acute care hospital facility providing medical care and treatment to the sick, aged or crippled.
2. Any PD-MI zone shall contain not less than five (5) contiguous acres, adjacent or within land of existing institution.
3. The institution shall have a comprehensive development plan for the entire zone, to include all sanitary facilities as required by the health and building codes of the city, and shall be designed, constructed and maintained in accordance with the statutes, ordinances and regulations of the city and the Commonwealth of Massachusetts.
4. Such a comprehensive development plan must be submitted to the Planning Board for its approval and be in accord with the stated or implied development objectives as listed in approved planning reports and studies of the city. Such approval is required prior to the issuance of a permit to build.
5. The Planning Board shall be satisfied that adequate financing exists for the development.

10.2.3 Use Regulations. The following uses are to be allowed in the PD-MI zone:

1. *Primary Uses:* An acute hospital care facility which provides accommodations and services for the observation, diagnosis and care of individuals suffering from illness, injury, deformity or abnormality, or from any condition requiring obstetrical, medical or surgical services. This Section requires that the facility must be capable of providing such services for a minimum of fifty (50) individuals for period of not less than twenty-four (24) hours.
2. *Accessory Uses:* Except as specified below, commercial uses are to be excluded from PD-MI zones. The limitations on accessory uses contained in Section 4.2 shall not apply in the PD-MI zone. The following accessory uses will be permitted accessory uses: Gift shops oriented to hospital patients and visitors; Cafeteria and food service principally designed to serve hospital, educational or other institutional patients, residents, employees, students and visitors; Bookstores and other retail facilities principally oriented to patients, residents, occupants, students, staff and faculty of medical and educational institutions; Educational or medical research facilities, either publicly or privately financed; Professional services necessary to provide complete medical or

educational facilities for the exclusive use and in connection with the primary use; Dormitories and residences for students, nurses and other staff members of the institution; Parking structures for the accommodation of patients, employees, visitors and students of the institution; Development of open spaces for passive and active recreation, and gymnasiums and sports facilities as elements of the education or rehabilitation program of the institution; Long term care facilities including, without limitation, any or all of the following: skilled nursing facilities, intermediate care facilities and resident care facilities, or similar facilities as may be defined and regulated by the Commonwealth of Massachusetts; Assisted living facilities, including without limitation, assisted living residences, or similar facilities; Senior housing facilities including, without limitation, facilities providing continuing care; Ambulatory Surgery Facility; Ambulatory Care Health Facility; Medical Office Building; Any other use which is ancillary, or ordinarily incident to, any of the foregoing primary or accessory uses.

10.2.4 Development Standards. The development shall harmonize with existing adjacent land uses and not interfere with the privacy and amenity of adjacent properties. To achieve these objectives, the following standards shall be met:

1. Dimensional Requirements. More than one building may be located on a single lot within the PD-MI zone. The setback from exterior lot lines of any building shall be equal to the height of the building. There shall be no requirement for setbacks for any interior lot lines within the PD-MI zone (i.e. lot lines separating individual lots within the PD-MI zone.) The maximum height shall be 100 feet or 8 stories. The maximum floor area ratio shall be 4.0. There shall be no minimum frontage requirement in the PD-MI zone. Parking areas shall be set back ten (10) feet from any building and five (5) feet from any external lot line.
2. Screening: All undesirable visual elements may be properly screened including, but not limited to the following:
 - A. Trash storage - solid screening required;
 - B. Open storage – solid screening required;
 - C. Utility equipment and structures - solid screening required;;
 - D. Parking - as required in Section 6.1.
3. Landscaping: Five (5) percent of required parking areas shall be required for landscaping. Such landscaping shall be distributed evenly throughout the entire parking area. This landscaping requirement is in addition to the parking requirement.
4. Access. All structures may have vehicular access to a public street.
5. Parking. The parking requirements for all uses within the PD-MI zone shall be one (1) stall for each one thousand (1,000) square feet of gross floor area for all lawful uses within the zone. There shall be a minimum of 300 square feet of paved area per parking space for all parking areas located within the PD-MI zone. The provisions of Section 6.1.5 shall not apply to parking areas located within the PD-MI zone.
6. A minimum of one loading bay shall be required for any building in the PD-MI zone containing in excess of 150,000 square feet of gross floor area. Loading areas shall be designed so as to adequately accommodate anticipated deliveries and so as to be appropriately screened from abutting Residential Districts. The provisions of Sections 6.2.2, 6.2.3, and 6.2.4 shall not apply in the PD-MI zone.

10.2.5 Subdivision of Land. Land within this district may be subdivided, but consistent with the original approved plan, so long as each separate lot within the PD-MU District meets the setback, floor area ratio, parking and landscaping requirements applicable to the PD-MU District as a whole. Any land so subdivided need not meet the minimal lot area otherwise set forth in the Zoning Ordinance, nor shall there be any required setbacks between lots in the PD-MU zone.

10.2.6 Rezoning Procedure. Application for a zone change to PD-MU zone shall be made in accordance with G.L. c. 40A, s. 5. Prior to the granting of a PD-MU zone change, the applicant shall submit to the Planning Board, with copies to the Inspectional Services Department, the following:

1. Description and map of the area to be rezoned, showing existing land use and zoning;
2. Proof of title to or agreement to purchase all property in the area;
3. A Comprehensive plan for the proposed PD-MU zone detailing proposed uses and showing perspectives, elevations and renderings to explain the physical aspects of the plan. The plan shall include existing as well as proposed buildings and other improvements. Architectural plans of proposed individual buildings should also be included;
4. A plan for utilities, transportation and safety facilities for project area;
5. Proof of availability of financing for project;
6. A written notarized statement by the legal applicant stating that such comprehensive plan will be adhered to and will not be modified without prior approval of the Planning Board;

10.2.7 Review. An application shall be considered “not submitted” until all the items outlined above are in the hands of the Planning Board. The Planning Board, thereafter, shall hold a public hearing as set forth in G.L. c. 40A, s. 5, as amended. The applicant is required to notify organized and recognized citizen groups in adjacent areas to the proposed development, if any, at the time of original application and after amendment, if enacted. Applicant shall execute any time extensions requested by the Planning Board in order to fully evaluate the plan and zoning ordinance.

10.2.8 Decision. Upon complete submission of the material set forth herein, the Planning Board shall formally act on the Comprehensive Plan. The Planning Board shall make its report and recommendation on the proposed PD-MU zone change to the City Council pursuant to G.L. c. 40A, s. 5. Thereafter, upon approval of the zone change by the City council the applicant shall then follow regular procedures to obtain a building permit as detailed in this Ordinance and in accordance with other applicable legal requirements. Detailed site plans and architectural plans will be submitted in accordance with zoning and subdivision laws, to the extent applicable.

ARTICLE XI. ADMINISTRATION AND PROCEDURES

SECTION 11.1 ADMINISTRATION

11.1.1 Permits. This ordinance shall be administered by the Building Commissioner, who may delegate the responsibilities set forth hereunder to members of the Inspectional Services Department. Buildings, structures or signs may not be erected, substantially altered, moved, or changed in use and land may not be substantially altered or changed in principal use unless in compliance with then-applicable zoning, and after all necessary permits have been received under federal, state, or local law.

11.1.2 Plans. Pursuant to the State Building Code, the Building Commissioner may require such plans and specifications as may be necessary to determine compliance with all pertinent laws of the Commonwealth. For the purpose of constructing accessory buildings and structures to residential uses and the addition of unroofed decks to residential uses, mortgage survey plans are sufficient for determining compliance with zoning requirements provided that the mortgage survey plan shows the proposed construction and setbacks.

11.1.3 Enforcement. The Building Commissioner shall institute and take any and all such action as may be necessary to enforce full compliance with any and all of the provisions of this ordinance and of permits and variances issued thereunder, including notification of noncompliance and request for legal action through the City Council. The Building Commissioner may, from time to time, delegate this duty to various members of the Inspectional Services Department.

11.1.4 Penalties. The penalty for violation of any provision of this ordinance, of any of the conditions under which a permit is issued, or of any decision rendered by the Board of Appeals shall be Three Hundred dollars (\$300.00) for each offense. Each day that each violation continues shall constitute a separate offense.

11.1.5 Right of Entry. The Building Commissioner shall, where such permit so authorizes and after proper identification, have the right to enter any premises for the purpose of inspecting any building or structure, at a reasonable hour and at such times as may be reasonably necessary to enforce this ordinance.

11.1.6 Noncriminal Disposition. Notwithstanding the foregoing, any alleged violation of any of the provisions of this Chapter may, in the sole discretion of the Building Commissioner, be made the subject matter of proceedings initiated by the Building Commissioner pursuant to the provisions of G.L. c. 40, s. 21D, that is, Noncriminal Disposition. If the Building Commissioner so elects to proceed such provision, all the terms and provisions thereof shall govern said action.

SECTION 11.2 BOARD OF APPEALS.

11.2.1 Establishment. There is hereby established a Board of Appeals of five (5) members and two (2) associate members appointed by the City Manager in accordance with the City Charter.

11.2.2 Powers. The Board of Appeals shall have and exercise all the powers granted to it by Chapters 40A, 40B, and 41 of the General Laws and by this ordinance. The Board's powers are as follows:

1. To hear and decide applications for special permits. Unless otherwise specified herein, the Board of Appeals shall serve as the special permit granting authority, to act in all matters in accordance with the provisions of Section 11.3, or as otherwise specified.
2. To hear and decide appeals taken by any person aggrieved by reason of his inability to obtain a permit or enforcement action from any administrative officer under the provisions of G.L. c. 40A, ss. 8 and 15.

3. To hear and decide appeals or petitions for variances from the terms of this ordinance, with respect to particular land or structures, as set forth in G.L. c. 40A, s. 10. The Board of Appeals shall not grant use variances.

11.2.3 Variance Prerequisites. If the application for a variance does not conflict with the foregoing prohibition, variances can only be granted by the Board of Appeals if it finds that owing to circumstances relating to soil conditions, shape or topography of land and especially affecting such land but not affecting generally the zoning district in which the land is located and a literal enforcement of the provisions of the zoning Ordinance would involve substantial hardship to the petitioner or appellant and relief can be granted without substantial detriment to the public good and without nullifying or derogation from the intent and purpose of this zoning Ordinance.

1. The Board of Appeals must find all these prerequisites before it can consider granting a variance. A failure to establish any one (1) of them is fatal.

2. The Board of Appeals is authorized to grant a variance from zoning ordinances only if each of the following jurisdictional conditions precedent exist:

A. Special hardship: “owing to circumstances relating to the soil conditions shape or topography of such land or structures and especially affecting such land or structures but not affecting generally the zoning district”

B. Public good: “desirable relief may be granted without substantial detriment to the public good”

C. Intent of zoning satisfied: “without nullifying or substantially derogating from the intent of zoning”

11.2.4 Plans. An applicant for relief before the Board of Appeals shall submit a plan containing the following data:

a. It shall be drawn at a scale of one (1) inch equals twenty (20) feet unless another scale is requested and found suitable by the board;

b. The plan shall be prepared by a registered land surveyor, professional engineer or architect;

c. The scale, date and north arrow shall be shown;

d. The plan shall be certified by the land surveyor doing the boundary survey and the professional engineer or architect on the location of the building(s) setbacks, and other required dimensions, elevations, and measurements and further that the plan be signed under the penalties of perjury;

e. The corner points of the lot* and the change of direction of lines to be marked by stone monuments, cut in stone, stake and nail, iron pin, or other marker, and shall be so marked;

f. Lot* number, dimensions of lot* in feet, size of lot in square feet, and width of abutting streets and ways;

g. Easements within the lot* and abutting thereon;

h. The location of existing and proposed building(s) on the lot;

i. The dimensions of the existing and proposed building(s) in feet;

j. The distance in feet of existing and proposed building(s) from the lot lines;

- k. The distance between buildings on the same lot;
- l. The percent of the lot* area covered by the building(s);
- m. The average finished grade of each building;
- n. The elevation above average finished grade of the floor and ceiling of the lowest floor of each building;
- o. Topographical lines at two-foot intervals;
- p. The use of designation of each building or part thereof, and of each section of open ground, plaza, or useable roof space;
- q. Numbering of parking spaces;
- r. Height of all buildings above average finished grade of each;
- s. Number of apartments, hotel rooms, meeting rooms, and restaurant and theater seats;
- t. Total square feet of floor space for each use;
- u. Dimensions and size in square feet of all landscape and recreation areas, and depiction of materials to be used (grass, five-foot shrubs, etc.).

* Refers also to series of contiguous lots under single ownership.

11.2.5 Repetitive Petitions. No petition for variance which has been unfavorably acted upon by the board of appeals shall be considered by the board of appeals within two (2) years after the date of such unfavorable action.
[Ord. 07-13-04]

11.2.6 Withdrawal. The granting of leave to withdraw after an application for variance has been advertised for a public hearing before the board of appeals, shall be considered as constituting unfavorable action.

11.2.7 Regulations. The Board of Appeals may adopt rules and regulations for the administration of its powers.

11.2.8 Fees. The Board of Appeals may adopt reasonable administrative fees and technical review fees for petitions for variances, administrative appeals, and applications for comprehensive permits.

SECTION 11.3 SPECIAL PERMITS.

11.3.1 Special Permit Granting Authority. Unless specifically designated otherwise, the Board of Appeals shall act as the Special Permit Granting Authority.

11.3.2 Criteria. Special permits shall be granted by the Special Permit Granting Authority, unless otherwise specified herein, only upon its written determination that the adverse effects of the proposed use will not outweigh its beneficial impacts to the city or the neighborhood, in view of the particular characteristics of the site, and of the proposal in relation to that site. In addition to any specific factors that may be set forth in this Ordinance, the determination shall include consideration of each of the following:

- 1. Social, economic, or community needs which are served by the proposal;
- 2. Traffic flow and safety, including parking and loading;

3. Adequacy of utilities and other public services;
4. Neighborhood character and social structures;
5. Impacts on the natural environment; and
6. Potential fiscal impact, including impact on city services, tax base, and employment.

11.3.3 Procedures. Special permit applications shall be governed by the rules and regulations of the special permit granting authority. Whenever an application for a special permit is filed with a special permit granting authority, the applicant shall also file, within five (5) working days of the filing of the completed application with said authority, copies of the application, accompanying site plan, and other documentation, to the Board of Health, Conservation Commission, Building Commissioner, Commissioner of Public Works, Police Chief, Fire Chief, Water and Wastewater Utilities, City Engineer, and Planning Board or Zoning Board of Appeals as the case may warrant, for consideration, review, and report. The copies necessary to fulfill this requirement shall be furnished by the applicant.

11.3.4 Conditions. Special permits may be granted with such reasonable conditions, safeguards, or limitations on time or use, including performance guarantees, as the Special Permit Granting Authority may deem necessary to serve the purposes of this ordinance.

11.3.5 Plans. An applicant for a special permit shall submit a plan in conformance with the requirements of Section 11.2.4, herein.

1. The provisions of this Section 11.3.5 shall not apply to applications for special permits to reconstruct, extend, alter, or structurally change a nonconforming single or two family structure. The Board of Appeals may establish procedures governing such applications by regulation.

11.3.6 Regulations. The special permit granting authority may adopt rules and regulations for the administration of this section.

11.3.7 Fees. The special permit granting authority may adopt reasonable administrative fees and technical review fees for applications for special permits.

11.3.8 Lapse. Special permits shall lapse if a substantial use thereof or construction thereunder has not begun, except for good cause, within 24 months following the filing of the special permit approval (plus such time required to pursue or await the determination of an appeal referred to in G.L. c. 40A, s. 17, from the grant thereof) with the City Clerk.

SECTION 11.4 SITE PLAN REVIEW

11.4.1 Purpose. The site plan review process is adopted pursuant to the Home Rule Amendment of the Massachusetts Constitution in order to protect and promote the health, safety, convenience, and general welfare of the inhabitants of the city, and to promote acceptable site planning practices and standards within the City of Lowell. It is also the intent of this review process to ensure compliance with the City of Lowell Zoning Ordinance, the Regulations of the Planning Board, and good zoning practices.

11.4.2 Applicability. The following types of activities and uses on a single lot or on contiguous lots in common ownership require site plan review:

1. Construction, exterior alteration or expansion of a nonresidential structure of involving more than 10,000 square feet of gross floor area.

2. Construction, exterior alteration, conversion, or expansion of any residential structure or structures with more than three dwelling units, except for subdivisions containing only single family homes approved by the Lowell Planning Board under the subdivision control law [Ord.8/10/04];
3. Construction or expansion of any parking lot with more than fourteen spaces or 4,000 square feet of impervious surface.
4. Any commercial construction involving the installation or construction of self-service gasoline pumps or drive-through or drive-up customer service on the premises.

11.4.3 Exemptions. Any development involving the renovation of an existing building subject to the review and approval of the Lowell Historic Board, where all substantial work is confined within the footprint of the existing building, is exempt from site plan review.

11.4.4 Procedures; Site Plan Review with Required Public Hearing. An application for site plan approval shall be submitted to the Planning Board for its review and decision. The Planning Board shall open a public hearing within sixty-five (65) days from the date of receipt of the application, and notice shall be provided in accordance with the provisions of G.L. c. 40A, s. 11.

1. The Planning Board shall, within thirty (30) days of the close of the public hearing, approve, approve with conditions, or deny approval of the site plan. The decision of the Planning Board shall be upon a majority of the Board as constituted.
2. The Planning Board shall file a written decision with the City Clerk within fourteen (14) days after taking action as set forth above.

11.4.5 Pre-Application Scoping. Applicants are invited to submit a pre-application sketch of the proposed project to the Planning Board and to schedule a comment period at a regular meeting of the Board. Waivers may be requested pursuant to section 11.4.9 at such scoping.

11.4.6 Application. An application for site plan approval shall be accompanied by six (6) copies of the site plan which shall be at a scale to be 1" = 20', unless otherwise approved by Planning Board. Additional copies shall be submitted as set forth in Section 11.4.8. Site Plans shall be submitted on 24-inch by 36-inch sheets. Plans shall be prepared by a Registered Professional Engineer, Registered Land Surveyor, Architect, or Landscape Architect, as appropriate. The site plan shall include the following information, which shall be submitted on the following sheets:

1. Existing Conditions.
 - A. Location of all existing natural features, including ponds, brooks, streams, wetlands, elevations and topography, proposed and existing contours.
2. Site Layout.
 - A. Location and dimensions of all buildings and other construction;
 - B. Internal roadways and accessways to adjacent public roadways, and a profile of same if determined to be necessary by the Planning Board;
 - C. Location of snow storage areas and trash dumpster.
3. Parking.
 - A. Location and dimensions of all parking areas, loading areas, walkways, and driveways.
4. Landscaping and Lighting.

- A. Location and type of external lighting;
 - B. Location, type, dimensions and quantities of landscaping and screening.
5. Utilities.
- A. Location and dimensions of utilities, including water, surface drainage, sewer, fire hydrants and other waste disposal, and a profile of same if determined to be necessary by the Planning Board.

11.4.7 Narratives. A zoning evaluation table shall be provided to show how the development meets or fails to meet the requirements of the City of Lowell Zoning Ordinance. Such site plan shall also be accompanied by a brief narrative, as required by the Planning Board, addressing the above site plan requirements and other appropriate concerns in the following defined categories: (a) buildings; (b) parking and loading; (c) traffic flow and circulation; (d) external lighting; (e) landscaping and screening; (f) utilities; (g) snow removal and (h) an environmental impact statement, if required by the Planning Board; otherwise a description of natural area protection and enhancement.

11.4.8 Review by Other Agencies. The applicant shall, within seven (7) days after submission of an application for site plan approval, transmit one (1) copy each of said application and plan to the City Engineer, Board of Health, Conservation Commission, Fire Chief, Police Chief, City Transportation Engineer, Wastewater Utility and the Water Utility, who may at their discretion, investigate the application and report in writing their recommendations to the planning board on a timely basis. The planning board shall not take final action on such application until it has received a report thereon from such officials or entities, or until thirty-five (35) days from the date of such transmittal have elapsed without a submission of said report(s), in which case failure to respond shall be deemed a lack of opposition to the application.

11.4.9 Waiver of Technical Compliance. The Planning Board may, upon written request of the applicant, waive any of the technical requirements of Sections 11.4.6, 11.4.7 or 11.4.8 where the project involves relatively simple development plans.

11.4.10 Decision. Site plan approval may be granted upon determination by the Planning Board that the plan meets the following objectives. The Planning Board may impose reasonable conditions at the expense of the applicant, including performance guarantees, to promote these goals. New building construction or other site alteration shall be designed, after considering the qualities of the specific location, the proposed land use, the design of building form, grading, egress points, and other aspects of the development, so as to:

1. Minimize the volume of cut and fill, the number of removed trees 6" caliper or larger, the length of removed stone walls, the area of wetland vegetation displaced, the extent of stormwater flow increase from the site, soil erosion, and threat of air and water pollution;
2. Maximize pedestrian and vehicular safety on the site, to the site, and egressing from it;
3. Minimize obstruction of scenic views from publicly accessible locations;
4. Minimize visual intrusion by controlling the visibility of parking, storage, or other outdoor service areas viewed from public ways or premises residentially used or zoned;
5. Minimize glare from headlights and lighting intrusion;
6. Minimize unreasonable departure from the character, materials, and scale of buildings in the vicinity, as viewed from public ways and places.
7. Minimize contamination of groundwater from on-site waste-water disposal systems or operations on the premises involving the use, storage, handling, or containment of hazardous substances;

8. Provide adequate access to each structure for fire and service equipment and adequate utilities;
9. Provide stormwater drainage consistent with the functional requirements of the Planning Board's Subdivision Rules and Regulations and all other applicable stormwater regulations.
10. Ensure compliance with the provisions of this Zoning Ordinance, including the parking, signage, landscaping and environmental performance standards.

11.4.11 Effect. No building permit shall be issued by the Building Commissioner without the written approval of the site plan by the Planning Board, or unless ninety (90) days lapse from the date of the submittal of the site plan without action by the Planning Board.

1. Where the Planning Board approves a site plan "with conditions", and said site plan accompanies a special permit or variance application to the Board of Appeals, the conditions imposed by the Planning Board shall be incorporated into the issuance, if any, of a special permit or variance by the Board of Appeals.
2. The applicant may request, and the Planning Board may grant by majority vote, an extension of the time limits set forth herein.

11.4.12 Lapse. Site plan approval shall lapse after two years from the grant thereof if a substantial use thereof has not sooner commenced except for good cause. Such approval may, for good cause, be extended in writing by the Planning Board upon the written request of the applicant.

11.4.13 Regulations. The Planning Board may adopt reasonable regulations for the administration of site plan review.

11.4.14 Fee. The Planning Board may adopt reasonable administrative fees and technical review fees for site plan review.

11.4.15 Appeal. Any decision of the Planning Board pursuant to this Section shall be appealed in accordance with G.L. c. 40A, s. 17 to a court of competent jurisdiction.

Attest: the foregoing is a true copy of the Zoning Ordinance of the City of Lowell in effect on December 17, 2003.

/s/

Richard C. Johnson, City Clerk
Lowell, Massachusetts
